CARRYING A HOUSE is not a heavy burden if you have a little ready money and will make the moderate payments regularly. Nothing like the ownership of property to give a man a standing in any community, and it is

SURPRISING how easy it is to own a house if you really want to, and are earning a fair income. We have some houses that some good men should own instead of paying rent. Maybe one of them is for you. Better see us about it any way.

There is but one remedy that will do this, and that remedy is **KODOL DYSPEPSIA CURE**. If you want to know more about Kodol, come in and

SHORT FRUIT TALK FROM A FRUIT MAN

A Short Letter From Cove in Which the Fruit Interests of That Prosperous Section are Discussed.

Cove, Ore., Feb. 16, 1903

Ed. Observer

While the 1903 is not yet a season properly for us as there are good many apples on the hands of the

Juncudas brought fancy prices. The raspberries made a very heavy crop and although the Montana markets failed us for the first time the returns were very good. The cherry crop was only fair, yielding about 10000 boxes of the sweet varieties and for the first time in history of Cove were practically unfit for long distance shipments, in fact they were no better than the usual run in the Willamette. It is difficult to explain this except on the theory that the extreme changes of the weather just preceding the ripening season prevented the cell walls from developing to the usual conditions here thus making them subject to rapid decay, the only way they would stand shipment and go to Minneapolis or Chicago in fair condition was when shipped in refrigerators by express. Shippers will therefore either wait enough to ship car lots or be afraid to handle them except at a very greatly reduced price to what have been paid in the past. The cherry growers had a very fair season getting 4 to 6 cents per pound for the fruit in the bulk delivered to pecking place which is 25 to 50 percent more than was paid any where else on the coast for similar

Portland Markets

The Portland wheat market continues its firmness but no changes in quotations were made during the week. As a result of the strength of the wheat market flour is quoted firmer with the demand larger. The Oriental business is not over large but some ordinary buys are reported. Prices there are just high enough to admit of a sufficient profit to ship.

WHEAT—Walla Walla, 73c; blue-stem, 78c; Valley, 79.
BARLEY—Feed, \$20 per ton, brew ing, \$20; rolled \$21.

How to Cure Catarrh.
Salt will cure catarrh if used persistently. Make a solution as strong as can be easily borne and snuff it up into one nostril at a time, retaining it there a second or two. It should be used three times a day, and the water must be slightly warmed.

How to Erase Stains.
Spots will often yield to chloroform when if gasoline were used a mark would be left on the goods, as is often the case with delicate silks and satins. Blood stains will disappear if first dipped in kerosene before washing in soap and water. Muriatic acid will take out iron rust. Where a fabric that is too delicate to be put in the wash tub receives blood stains wetting well with lukewarm water and rubbing firmly with a clean cloth will dissipate the stains if persisted in.
