There is a position waiting at the Observer office for the young lady who would like to learn to set type. If you think you would like to learn call at this office.

There were several boys in the school yesterday who had been strangers to the school room for some time. The cause of their sudden change of heart regarding an education was the personal attention given them by Marsal Rayburn. Yesterday he rounded up four or five boys who had made a steady practice of playing truant and marched them up to the school and turned them over to Principle Hockinberry. This is a good move and one which should be appreciated by the parents who are unable to exercise the proper control over their boys.

Remember that Uncle Tom's Cabin will be here tomorrow night, and if you are going you had better secure your seats today for seats are going fast and tomorrow evening will be a little late. It will be a question of standing room only.

Dr. O'Connor returned from Union yesterday, where he has been transacting business relative to his addition to this city.

The following young people spent Sunday in Union.

Mertie Aldrich, Altie Stevens, Lillian McCall, Grace Kinsey, Cleve McKennon, Edna Schilke, L W Damon, F B Fischer, J R Smith, Elva Jamison, Mrs L Given, Nick Beaver.

DIED
Berkley—In the city Monday 29th, 1904, Westley the eight year old son of Mr and Mrs W S Berkley, of diphtheria. The interment took place yesterday afternoon in the L. O. O. F. Cemetery. Another child in the same family is quite ill with the same disease but is thought to have passed the danger point.

Diphtheria Cure
One of our readers has handed in for publication the following "sure cure" for diphtheria. While this may be sure, safe and reliable we would advise our friends when they have reason to believe that their children have this dreaded disease to call their family doctor and see what he thinks about the cure and follow his advice to the letter. There is a vast difference between diphtheria, mumps, hives or heat rash.

"Use a little gun powder every little while put it on the tongue and let it dissolve and also put some coal oil on a flannel rag and put it on the throat."

SAFE CRACKERS AT WORK AGAIN

Athens, Feb.—Safe crackers blew open the postoffice safe in this city last night between 1 and 2 a m., and made good their escape with about \$40 in cash, the entire contents of the safe.

Entrance to the postoffice was effected by boring through the rear door, and removing the bolt, the job being done by some one perfectly familiar with the premises.

The explosion which shattered the safe door, was heard all over town, and a large crowd rushed down to the bank, thinking an attempt was being made to rob that building, but on reaching the bank, Cashier Le Grow, who was the first to reach the building, found that nothing had been molested there, and the crowd then went to the postoffice, finding the safe door blown into fragments and the tools lying on the floor, but the robbers gone.

This is the fourth safe blown open in Umatilla county within the past month, and the work has evidently been done by the same parties as the same general methods have been pursued in all the robberies. The robberies mentioned are the Milton station safe, of the O R & N company, the Oregon Lumber Yard safe in Pendleton, the Cayuse postoffice safe and the Athens postoffice safe.

Grande Ronde Valley Fruit Farm
The Grande Ronde valley fruit farm contains 320 acres, and is to be sold in lots of ten lots and an up, to suit the purchaser. It is situated eight miles north-east of La Grande, Oregon, near the Elgin branch of the O. R. & N. railroad.

We furnish the purchaser, at the end of three years, a thrifty growing apple orchard, one that has been cared for from setting. In the most approved manner, cultivating the land six or eight times a year, keeping the ground well pulverized, and at all times free from weeds, grass and other vegetation. May 1st and August 10th of each year; keeping the trees pruned in the most scientific manner; removing and burning all cuttings and suckers, and in short, do any and all work which will be for the best interest of the trees. We replant all trees that may die in the first, second and third years, and pay all taxes for three years. We furnish the land, labor and material, and trees, and three years' care, at the price of \$135 per acre, giving three years in which to pay for it.

Our terms of payment are 25 per cent of purchase price, cash; balance in three yearly payments, bearing interest at the rates of 6 per cent per annum.

The purchaser can remain where he is, make no immediate change in his business or home interests, making his present business pay for his investment, sacrificing no time while the orchard is being brought into bearing condition, and rest assured that skilled horticulturalists will do the work better than he can unless he has had horticultural experience under conditions existing in Oregon. After trees have had scientific care, pruning and shaping for three years, the subsequent work is much more methodical and can be successfully done by those without horticultural skill.

As an investment it is gilt edged; and is the nearest possible approach to a guaranteed annuity.

We have all our work done by contract and the contractors are under heavy bonds to us for the faithful performance of their work.

We have executed a bond to the amount of \$10,000, and have appointed Hon. J. M. Church, cashier of the La Grande National Bank, trustee.

For further particulars see M. L. CAUSEY, President Eastern Oregon Colonizing Company, Foley-Roesch Bldg. La Grande, Ore. D. W. -4, -1.
