The World's Fair Route

Those anticipating an Eastern trip, or visit to the Louisiana Purchase exposition at St. Louis, cannot afford to overlook the advantages offered by the Missouri Pacific Railway, which, on account of its various routes and gateways, has been appropriately named "The World's Fair Route."

Passengers from the Northwest take the Missouri Pacific trains from Denver or Pueblo, with the choice of either going direct through the Kansas City, via Wichita, Fort Scott and Pleasant Hill.

Two trains daily from Denver and Pueblo to St. Louis without change, carrying all classes of modern equipment, including electric lighted observation parlor cafe dining cars. Ten daily trains between Kansas City and St. Louis.

Write, or call on W. C. McBride, General Agent, 124 Third street, Portland, for detailed information and illustrated literature. 3-2-11

He Gets Off Easy

The case of the State of Oregon vs. T. S. Tillson in which Mr. Tillson was charged with illegal voting at the city election last Monday, was dismissed in Justice Grant's court Tuesday afternoon by consent of the State representative and the prosecuting witness. The penalty attached to illegal voting is nothing short of a term in State prison and a lack of a desire to see the defendant suffer such extreme punishment is the reason for dropping the case.

Osteopathy.

From time to time during the past two years we have used the columns of this paper, in an educational effort along the line of Osteopathic truths. Coming to La Grande a stranger and launching out in the practice of a Profession which was unknown to many, we realized that we must accomplish two things viz: cure a large percent of the people who come to us with their ills, and enlighten our patients and all people interested, to reason for themselves and "get back to nature."

Osteopathy has had no small undertaking to establish itself, against the odds of tradition, and the obscurity and superstition which has surrounded the Healing Art for ages.

It has been a second nature for people in years past, to think they must pour something down the throat with every ache and pain whether the dose reached the toe or the ear was not considered. So often failure resulted that people looked for new methods. As a result during the past twenty-five year many kinds of health methods, mind cures, faith healings, have been resorted to. Even the Regulars after two thousand years of dosing, are turning to electricity, hot air apparatus vibrators, hydrotherapy and other ways of treating.

It was left for Osteopathy established in 1874 to give the world a scientific (not experimental) method of healing, based upon Anatomy and Physiology. No healing science has made the progress Osteopathy has. It has had to fight its way, but it is easy to fight when you are on the right side. "Results Tell," is our motto.

It is our purpose to assist people to reason for themselves, and to explain the truths of Osteopathy in a most dignified manner. Not to land our cures, but to show the reasonableness of Osteopathy. Simple explanations of this science will be our effort from day to day. F E MOORE, D O Sommer building, La Grande Ore.

Grande Ronde Valley Fruit Farm

The Grande Ronde valley fruit farm contains 200 acres, and is to be sold in lots of ten lots and an up, to suit the purchaser. It is situated eight miles north-east of La Grande, Oregon, near the Elgin branch of the O. R. & N. railroad.

We furnish the purchaser, at the end of three years, a thrifty growing apple

orchard, one that has been cared for from setting, in the most approved manner, cultivating the land six or eight times a year, keeping the ground well pulverized, and at all times free from weeds, grass and other vegetation. May 1st and August 15th of each year, keeping the trees pruned in the most scientific manner; removing and burning all cuttings and suckers, and in short, do any and all work which will be for the best interest of the trees. We replant all trees that may die in the first, second and third years, and pay all taxes for three years. We furnish the land, labor and material, and trees, and three years' care, at the price of \$135 per acre, giving three years in which to pay for it.

Our terms of payment are 55 per cent of purchase price, cash; balance in three yearly payments, bearing interest at the rate of 6 per cent per annum.

The purchaser can remain where he is, make no immediate change in his business or home interests, making his present business pay for his investment, sacrificing no time while the orchard is being brought into bearing condition, and rest assured that skilled horticulturalists will do the work better than he can unless he has had horticultural experience under conditions existing in Oregon. After trees have had scientific care, pruning and shaping for three years, the subsequent work is much more methodical and can be successfully done by those without horticultural skill.

As an investment it is gilt edge; and is the nearest possible approach to a guaranteed annuity.

We have all our work done by contract and the contractors are under heavy bonds to us for the faithful performance of their work.

We have executed a bond to the amount of \$10,000, and have appointed Hon. J. M. Church, cashier of the La Grande National Bank, trustee.

For further particulars see M. L. CAUSEY, President Eastern Oregon Colonizing Company, Foley-Roess-h Bldg. La Grande, Ore. D.-W.-4.-1.

A good dinner will make its presence felt in spite of all efforts to conceal it. The odors from our kitchen would give any man an appetite, so delicious is the aroma arising from the best of foods carefully cooked. By rights we ought to charge extra for this but we do not—because we know that once a man has tasted our food he will become a steady eater at our tables. And the meal will always leave him some change in his pocket, too.
