Teamsters had considerable trouble yesterday on Sixth street near the city hall where the recent fill had been. Three teams were completely stuck and in each instance additional teams were required to get the wagons out. Teamsters should fight shy of this place as in its present condition a saddle blanket would mire the e. A few days of sunshine will make it all right, but just now it is impassable.

OSTEOPATHY ASSISTS NATURE

Nature always tends toward the normal-toward recovery from disease. The time required to restore the normal depends upon the assistance or hindrance Nature meets with on the part of the physician. The Osteopath does not go against Nature by giving drugs, but by rational, scientific means assists normal processes to recover their equilibrium in the human system. Therefore he shortens the time which Nature requires to work a cure. Remember, it is always Nature that cures—the physician can never be more than Nature's assistant.
