Right now we can show you the swiftest line of millinery

Spring and summer dress goods, all new and up-to-date. Sells Royal Blue shoes, every pair guaranteed. Ribbons, etc., in fact everything to be found in a dry goods store. You can get your goods now, have them made up and be wearing them. Later on other dealers will have cut prices to almost compete with ours. **DON'T FORGET** our great bargains in jewelry—we can save you half on it. Expert jeweler in charge who does all kinds of work, and guarantees it.

PROPER RING TO IT

In an interview after the results of the congressional convention, Mr. Moody stated, "I have no complaint to make of the result, and my friends and myself will be found as always in the past, in success or defeat, yielding to the will of the majority and supporting the regular nominee of the party. My own county has a record in that particular that will not be broken."

This is cleaning up time. There is need of it. The cleaning should extend further than the front yard. It is in the back yard that one gets a true idea of the owner of a property. It is there one finds the ash pile and the potato peelings, the old tin cans, the broken crockery, the joints of stove pipe, old rags and other debris. That is the place where disease is bred. So clean up the front yard and the back yard at the same time.

J. N. Williamson now has three sessions of congress ahead

A Medical Defense on Corsets.
The use of the corset is to transmit the pressure of the skirt bands to the hips and the ribs and so to protect from their pressure the organs in the region of the waist. The conclusion is that so long as skirt bands are fastened round the waist corsets should be worn. They should be stiffer than usually made if they are effectively to protect the soft middle portion of the body from the pressure of the waist-band. The front should be quite straight, and the waist measurement should be at least as large as the wearer's waist, measured over a single soft garment. The abuse of the article consists in employing it as a means of compressing that which it was meant to protect from compressing—namely the soft middle portion of the body. Medical Press and Circular.

Some Dissected Tablets.
Some of the excavations at Nineveh show that the Babylonians had multiplication tables five times as long as those commonly used in schools. Most little men and women, for instance do not have to go further than twelve times twelve, but the little Babylonian children, says Dr. Hermann V. Hilprecht, who superintended the late excavations, had to go as far as sixty times sixty. Numbered fragments of tablets bearing these "multiplication tables" have been found, some few of which go as far as 1,300 times 1,300. But these were evidently only for astronomical purposes. Those old astronomers seem to have felt hard pressed for time, and when they were calculating the distances of the new stars they found, and their size, they did not want to take the time to multiply, and so just referred to these tables in a tone

of him with good opportunities to make a record for himself. He is a man of energy and of conscientious endeavor as well as of superior ability and strong integrity, and these qualities should win him a place of influence that will be valuable to the state.—Pondleton Tribune.

The resolutions passed at the Democratic county convention congratulating themselves upon their success in filling nearly every office, in a county that is republican by at least 200 majority, should make republicans think and remember there is only strength in unity.

If Union and Wallowa counties stay together in the Democratic party as they did in the Republican Convention, Union county will have a prosecuting attorney for once. Something that has not occurred since the late Senator J. H. Slater was elected in 1896.

Residents in the vicinity of Geddes Bros. grocery store on North Fir street, are anxiously waiting for the city or adjacent property owners to fill in that lake that seems never to go dry. A visitor in that part of the city yesterday thought the river had broken through at that point.

The ticket is now made and it now remains for the republicans to stand by their colors and see that it is elected from top to bottom. There can be no possible excuse for the failure to elect a single nominee. They are all good men and worthy of republican support.

After the June election the court house will be filled with republican office holders. It will be a rather novel situation for Union county, but it will be a working demonstration of what the republican party can do when the entire party is united.

Japan certainly has a warm spot for the newspapers. Just as the public tension is about to relax she sinks a few Russian ships, and then keeps the whole world, including Russia, guessing what she will do next.

What has become of the water fountain, the rest room and the city park? These are all worthy enterprises and should not be allowed to die for lack of care.

Ireland's Wonderful Linen.
Whether or not Ireland is the finest country in the world for growing flax, it is beyond dispute the finest in the world for bleaching linen, an operation which requires from six to eight weeks, according to the nature and weight of the fabric. Nowhere else can the snow white finished fabric be turned out to rival the Irish bleach. France, Belgium, Germany and the United States have all entered into competition and retired unsuccessful. The quality of the water, the climate and the inherited experience of the Irish bleachers must all contribute to the result, which has had abundant practical demonstration that Ireland now occupies and has always occupied the first place in the whole world for bleaching and finishing linen.

About Home Tones.
"You can tell the atmosphere of a home, the general character of the family as a whole, as inevitably from the names and personality of the maid who opens the door for you as from the furnishings of the domicile itself," said an observant householder the other day. "Both unconsciously reflect the dominant tone in the domestic ménage. I would rather do without a maid and compose my own work with the help of an errand runner than have a loud voiced, ill-mannered person about my apartment. I would as soon hang an advertising chrome in my hall or drape my windows with red bunting." This may be an extreme view, but the fact remains that too little attention is paid to this important detail of the home. A guest is often seriously inconvenienced by a thoughtless, discourteous maid, and nothing aids more to the comfort of an entire household than a gentleman, whatever her color or class as servant.

Four of a kind—is a pretty good hand of cards. But at the hot-her's in the hot that counts, not the four. We keep only one kind of meat, the kind that's fresh, healthy, tender and juicy. Buy your steaks and chops here, and they'll always be right. Our stock is well fed and properly cared for. Consequently our meat has a delicious flavor.
