A gentleman came into the office last evening and exhibited a badly skinned shin which was caused by stepping into a hole in the sidewalk. This accident, though comparatively insignificant, goes to show what might happen in the way of a more serious accident that might involve the city in an expensive law suit.

It would be an unqualified boon to health if the use of no poison in the Pharmacopoeia had ever been discovered.

How many prominent lawyers, ministers, educators, and platform lecturers the past year have been forced to give up all work to nurse depleted nervous system. A little moderation mixed with Osteopathy is a life preserver for brain workers.

It's in the cooking that makes most of the difference between a good meal and a poor one. The best food will be spoiled by poor cooking. We are so prudent to waste good victuals by poor cooking. The patrons of our restaurant are very particular people. If our dishes were not properly cooked we would lose the vital and the patronage as well. So you can always be sure of a first-class meal here. We cannot afford to serve any other kind.
