Big Plant Damaged

Boise, Idaho, May 24.—The plant of the Highland Power Company on Boise river, 20 miles above the city was swept away yesterday afternoon. The loss is about \$150,000, the river had been dammed with a crib dam and the power house stood under the river bank sixty feet below the dam. This plant was used for pumping water for placer mining and was to be converted into an electric plant when the placer ground had been exhausted. The home office of the company is in New Hampshire.

First Sales Of Season

Baker City, Ore., May 24.—The first wool sales of the season in Baker county were consummated in this city today. Frank H. Johnson of Boise has purchased all the big clips in the county, principal of which is that of Lee brothers, W. G. Ayre, Whittier brothers and Baker. Shearing has only just commenced in this section, and these sales were made in advance of the clips being delivered in warehouse. The price paid range from 10 1/2 to 12 cents per pound. Mr. Johnson says that while 1 1/2 tons wool sold for 12 and 13 cents the Baker county product being so much heavier, the grower here will receive a third more per sheep than the Idaho neighbor.

Claim a Majority.

Columbus, Ohio, May 24.—The Hearst men tonight claim a majority of 20 in the state central committee tomorrow when the contests will be determined. The Bryan-Hearst men call themselves "regulars" and the others "reorganizers." Their opponents call themselves "conservatives" and the other radicals.

The Bryan-Hearst men's poll for the 728 delegates is Regulars 351; Reorganizers 172; doubtful 200, the last named including contested seats. The Conservatives say the contest will be decided in their favor by the committee on credentials no matter what the state committee does; that their poll shows 523 conservatives and 200 radicals. Without the 200 contested seats and when the convention is permanently organized any ballot will show 523 conservatives to 200 radicals.
