## OUTLOOK BRIGHT

### A Large Crop of Beets Is Assured and Prospects Favor a Good Season's Run.

In an interview with an Observer reporter yesterday J. H. Liebman head book keeper for the sugar company stated that the prospect for a long campaign this season was never brighter. The acreage is not so large as it has been other years, but the yield will be much better. He had just returned from an inspection of the entire valley and stated that he was much pleased with the outlook. The stand is all that could be desired and the plants all seem healthy. The fields are all in better shape than usual and the prospect is very flattering. The company has expended a large amount of money already this season in caring for the fields in which they have a direct interest. The pay roll for the month ending June 15 totaled up to the neat figure of \$5,030. This amount is exclusive of the amount paid the Japs for work they did in the beet fields. The sugar factory is a disburasing agency of no little importance both in a direct and an indirect way. The amount of money expended and brought into circulation by the factory if suddenly stopped would cause our people to appreciate what it means to have a sugar factory in our midst.

## Labor In The U. S.

Joseph G. Cannon of Illinois, speaker of the House of Representatives on taking the gavel as permanent chairman of the Republican convention at Chicago on the 25th inst. in a telling speech among other things said: "More than one-third of all the manufactured products of the whole earth is produced by American capital labor, which works shorter hours than any other people on earth and has more steady employment than any other people on earth, on an average receives, conservatively stated one and three-fourths dollars compensation where similar labor elsewhere receives but one dollar. "Our manufactured product is greater than the manufactured product of the people of England, Germany and France combined and this product is substantially consumed by our own people, finding a market within the borders of this republic. "Although our exports and manufactured products are rapidly growing last year they were more than \$400,000,000, 29 per cent of which made up our total exports. If we did not sell a particle of our immense product outside our own borders, we would still have the best market of any people on earth. "We are now the greatest exporting nation on earth. It is absolutely necessary that we should see to it that we continue that policy which enables us to dominate our own markets and to continue the present and a growing wage to our own people."

## Socialist Speaking

As announced in yesterday's Observer, J. W. Stevens, the Socialist organizer from Portland, Ore., appeared in the corner of Depot street and Adams Avenue addressed quite a nice crowd and enunciated the ideas and theories

of the socialist party. Altho we may not agree with these Utopian theories, yet we must give Mr. Stevens credit for appearing earnest and entirely wrapped up in the questions he discussed. After taking a crack at all creation in general; after saying that we, the citizens of the United States, were more abject slaves of capital now than the negro was of his master; after stating that the ballot was the only weapon the working man had, and that the moneyed powers had all the weapons available, including the laws and courts; after proclaiming that the Supreme Court, the most august body in the world could be influenced by capital; after prophesying that whether republican or democrat was elected as president this fall, he would be elected to do the behests of the money powers; -- after all this he stopped to take a fall out of the lawyers, real estate agents and drummers, declaring them to be of no earthly social use, and parasites on the body politic.

## Fire! Fire!

The fire bell sounded its fearful alarm this afternoon at two thirty. The alarm was caused by the burning of several gallons of oil in the rear of Stackland & McLachlin's paint store on Adams avenue. A five gallon can of oil was being boiled and it ignited, causing a dense cloud of smoke. Mr. Stackland and Wallace Childers with the timely aid of the pump which was only a few feet from the fire succeeded in subduing the flames in a very few minutes. The fire department responded promptly but the fire was a master of history by the time the cart arrived.

Mr. Duncan writes that he has made his home in Elgin and orders the Observer sent to him.

## MORE GRADES

### Are Asked For By the Patrons of the School in the North Part of the City.

A petition is being circulated to be presented to the board of school directors of this city asking that four more grades be added to the course of study across the track. In speaking to one of the members of the board regarding the matter he stated that it was for the people of the district to decide. If a petition representing a sufficient number of the citizens of the district was presented, there would be no question but what a special election would be called for the purpose of voting the necessary bonds to raise the amount required to build the additional rooms or building. There is no question but what the time is not far distant but what this district will be compelled to build another school building and when it does it is conceded that it should be across the track. The only question to be considered is the expense. At the present time two grades are taught in the little brick and in the opinion of the member speaking if we build we should have a building that will be sufficient to accommodate the north side of the track for many years and such a building would cost in the neighborhood of \$10,000. The school district is in good financial condition. During the last two years \$11,000 in bonds have been paid and the school tax reduced 5 mills leaving the present indebtedness at \$27,000. As the school district and the city limits are nearly the same, the city indebtedness should be included, as by far the greater majority of the taxable property in the school district is within the city. The bonded indebtedness of the city, including the new city hall bonds is \$75,000 and the outstanding warrants about \$23,000, making a total indebtedness of city and school of \$125,000. Were the conditions normal and our present income assured the additional tax to build and maintain a larger school across the tract would not be great nor burdensome to the taxpayers but the gentlemen stated that in the event of this county being carried next November in favor of local option, the revenues of this city would be deprived of about \$8,000 license money it now receives and this amount would have to be derived by taxation which would necessarily increase our present city tax and in view of the fact that our present school facilities are ample to provide for our present needs as now being utilized, whether now is the time to consider the question of another school building is for the petitioners and people to decide, as stated before it is not for the school board but the tax payers to say.

## The Ball Game

The following is the line up of the two nine which will play base ball next Sunday. As will be seen the members of both teams are old experienced players and will no doubt put up about the fastest ball ever. An admission of twenty-five cents will be charged, which will turned over to Mayor Poley with instructions to donate the same to some needy family.

## A Pleasant Evening

Last evening Mr and Mrs E R Brasel gave their daughter, Mrs Stiles a very pleasant surprise party. Gathering a number of friends, they loaded themselves down with refreshments and stormed the fort. After playing games of different kinds, and participating in badinage and friendly conversation, cakes and strawberries, bananas, oranges were served to those present. The parties participating in this su-

joyable evening were Mr and Mrs Joo Ladd, Mr and Mrs G E Fowler, Mr and Mrs McCormick, Mrs Neab, Mrs Farquharson, Mrs Buck, Mrs Tom Short, Mrs Ed McKinney, Mrs Eda Horton, Mrs Thora and daughter, Misses Dora Thorn, Maggie Ladd, Ada Fowler, Rose Herr, Maud Brasel, Mr Wm Herr, and Mr and Mrs E R Brasel.

## Improvements

John L. Mars has moved the old building, formerly used by him as a real estate office, from its former position to the East end of Adams Ave. and is converting same into a residence. P Boquet has the contract for the erection of the improvements which is estimated at from \$900 to \$1000 and Martin Adams is doing the work for Mr Boquet. When the improvements are completed, it will be a neat and tidy cottage.

## RAILROAD FOR WALLOWA

While in conversation with a railroad man recently a Chiefstain representative learned that Wallowa County is practically sure of a railroad next year. In fact it would have been built this year had it not been presidential year. Property of all kinds has been

on the increase in this county of late and as soon as the first shovel full of dirt is turned on a railroad values will double. That the road will be built next year seems very evident from the fact that this county has reached such a point in its development that it will soon have railroad transportation of some kind, and if the O R & N does not build some other company will. Several men who represent Capital have expressed themselves as willing to take up an electric road proposition as soon as the O R & N's five year franchise expires which is pretty soon -- Enterprise Chiefstain

**No One Buys Drugs For Fun**

No one sells them for amusement. It's a serious, important business on both sides. A drug store should have two missions: One, to furnish drugs that can be relied on, the other to furnish them for what they are worth. Drug stores exist for the public good. Knowledge, experience and progressive methods should mark their management. We endeavor to keep step with the progress of the age, to meet every requirement of the community, to conduct a store that shall stand for all that a drug store should.

We wish to serve those who want accurate service, high grade drugs, and uniformly fair and courteous treatment.
