

Ladies' High Grade \$3.50

Most people don't know what economy means. Merely pinching the price isn't economy. Real economy thinks last of price and first of QUALITY.

Economy is in what you get, not in what you pay. Saving money at the expense of QUALITY isn't economy, it is extravagance. When we buy our goods we look first to QUALITY both in material and workmanship. When we sell our goods we give you good QUALITY at prices that are never higher than such goods are worth. The best QUALITY shoes are cheapest in the end by far.

INSULTED THE FLAG

A Horde of Greek Laborers Insulted The Nations Dignity At Pleasant Valley.

Red blood came nearly flowing in riot at Pleasant Valley on the Fourth. The dignity of this country was insulted by garlic-eating foreigners, and American citizens promptly resented the outrage.

But for the scarcity of citizens in the little town of Pleasant Valley, who went picnicking in the mountains yesterday, there would have been something doing, and there would have been bloody-headed Greeks to tell the story.

A work train of ignorant Greek laborers, who were sidetracked at Pleasant Valley, spent the fourth in idleness except when poking fun at the United States and United States institutions. The first thing was to construct a flag of a flour sack, a strip of green cloth, and a strip of red cloth. They mockingly stated that it was the American flag and unfurled it over their quarters. The citizens bore this.

Then the garlic-eaters constructed a life-sized dummy representing what they termed an American citizen, and placed in one hand a small American flag and in the other a whiskey bottle. It was then that the few citizens who remained in the town proceeded to the place where the effigy was attached to a high pole and removed it, and informed the Greeks that no further foolishness would go.

The garlic-eaters, upon seeing the determined move of the citizens, decided from their fun-making at the expense of this Government.

It is claimed that some of the men were in the famous riot at La Grande last fall when the Greeks held for ransom the O. R. & N. trainmaster for two hours because he refused to issue them transportation. The citizens finally rose up in a body and drove them from town with guns and pick handles.

Delayed By Cloudburst

A cloudburst occurred late yesterday afternoon about one and one half miles east of Durkee, which delayed passenger train No. 5 for more than three hours. The deluge of water came down from the hills on the right as the train was coming west, and for a half mile the water was over the ties, but the rails could be seen, and the train pushed its way as far as possible through the sage brush, mud and sand that covered the track for a half mile. Moreover, the train was compelled to stop when it reached the point where the greatest volume of water had struck the track. At this place had been a small culvert, which being too small to carry the unusual amount of water, was washed out and a gaping space about eight feet deep and ten feet wide under the rails. The work of repairing this place was immediately begun. Some of the passengers deserted the coaches and picked their way carefully about trying to avoid the mud and water, making numerous inquiries as to how long it would take to do this or that, and how long they would be detained. The employees of railway company worked faithfully and quickly, and in three hours the track was in condition for the train to proceed on its way.

HARD WALL PLASTER

Only costs about 5c per yard more than common plaster, and worth many times over.

ADVANTAGES
No danger of freezing as it can be used in zero weather. Being flexible instead of brittle—as all sand mortars are—it will dent like wood when struck or jammed, instead of breaking. Doors, windows, pipe holes, etc are easily cut through it. It is a non conductor of electricity and thus prevents short circuiting. It adheres equally well to brick, stone or common lath. It contains no acids nor chemicals to corrode. It will not burn nor disintegrate by fire being a perfect protection for wood frame work. It will under no condition pit or blister. Parties having plastering to do should consult me regarding this class of work. Estimates cheerfully given.
