

Most people don't know what economy means. Merely pinching the price isn't economy. Real economy thinks last of price and first of QUALITY. Economy is in what you get, not in what you pay. Saving money at the expense of QUALITY isn't economy, it is extravagance. When we buy our goods we look first to QUALITY both in material and workmanship. When we sell our goods we give you good QUALITY at prices that are never higher than such goods are worth. The best QUALITY shoes are cheapest in the end by far.

GRANDE RONDE VALLEY

FRUIT FARM

The Grande Ronde Valley Fruit Farm contains 320 acres and is to be sold in lots of five acres and up to suit the purchaser. It is situated eight miles northeast of La Grande, Oregon, near the Elgin branch of the O. R. & N. Railroad.

We furnish the purchaser at the end of three years a thrifty growing apple orchard, one that has been cared for from setting, in the most approved manner, cultivating the land six to eight times a year, keeping the ground well pulverized, and at all times free from weeds, grass and other vegetation between May 1st and August 15th of each year; keeping the trees pruned in the most scientific manner; removing and burning all cuttings and suckers, and in short do any and all work which will be for the best interest of the land and trees. We replant all trees that may die in the first, second and third years, and pay all taxes on the land for three years. We furnish the land labor and material and trees and three years' care, at the price of \$120 per acre, giving three years in which to pay for it.

Our terms of payment are 55 per cent of purchase price, cash; balance in three yearly payments, bearing interest at the rate of six per cent per annum.

The purchaser can remain where he is make no immediate change in his business or home interests making his present business pay for his investment, sacrificing no time while the orchard is being brought into bearing condition and rest assured that skilled horticulturalists will do the work better than he can unless he has had horticultural experience under conditions existing in Oregon. After trees have had scientific care pruning and shaping for three years, the subsequent work is much more mechanical and can be successfully done by these without horticultural skill.

As an investment it is quite edge and is the nearest possible approach to a guaranteed annuity.

We have all our work done by contract and the contractors are under heavy bonds to us for the faithful performance of their work.

We have executed a bond to the amount of \$10,000 and have appointed Hon. J. M. Church, cashier of the La Grande National Bank, trustee to indemnify any parties purchasing land on the Grande Ronde Valley Fruit Farm from us who may suffer by our not fulfilling our obligations.

Almost Left Behind

There is fault to find somewhere in the manner the members of company L of this place were retarded in getting upon passenger train No. 5 last evening. There was a car especially prepared for their transportation to Portland, attached to the rear of the train, but, from negligence in some quarter, the doors to the coach were not opened at the time the train arrived, nor for some time afterwards, and just as the train was starting, the boys were all ready when the train arrived, and waited patiently for the doors of the coach to be opened. When the doors were open, the members of the company began to crowd aboard as fast as possible, but scarcely more than half had gotten upon the coach when the train began to move, and it began to "sprout" from the start. It seemed that several would be left, but by risking mangled limbs, and with the assistance of those aboard, all finally succeeded in gaining foothold upon the car, and none were left behind.

Away to the Mountains.

Now is the time of year for outing parties and fishing trips, and the people who are able to leave their business for a few days are not slow in taking advantage of an opportunity to go. A trip of this kind makes a new man out of a person, and breathing the pure mountain air, taking the exercise that necessarily follows on an excursion of this kind, and the entire change of mode of living on diet, adds to the health and life of a person fortunate enough to participate in it.

The last party to leave the city on an outing of this kind, was composed of Messrs. Robert Newlin, F L Myers, A V Andrews, J J Carr and Judge Win Grant who left this afternoon for Beaver creek to be gone several days.

HARD WALL PLASTER

Only costs about 5c per yard more than common plaster, and worth many times over.

ADVANTAGES

No danger of freezing as it can be used in zero weather. Being flexible instead of brittle—as all mud mortars are—it will dent like wood when struck or jounced, instead of breaking. Doors, windows, pipe holes, etc are easily cut through it. It is a non-conductor of electricity and thus prevents short circuiting. It adheres equally well to brick, stone or common lath. It contains no acids nor chemicals so cements. It will not burn nor disintegrate by fire being a perfect protection for wood frame work. It will under no conditions rot or blister. Parties having plastering to do should consult me regarding this class of work. Estimates cheerfully given.
