

Most people don't know what economy means. Merely pinching the price isn't economy. Real economy thinks last of price and first of QUALITY.

Economy is in what you get, not in what you pay. Saving money at the expense of QUALITY isn't economy, it is extravagance. When we buy our goods we look first to QUALITY both in material and workmanship. When we sell our goods we give you good QUALITY at prices that are never higher than such goods are worth. The best QUALITY shoes are cheapest in the end by far.

THE KIND WE WANT

President Roosevelt is Honest and Cannot be Controlled—Will Be Re-elected.

Marion Butler, who was chairman of the peoples party national committee makes the following statement regarding president Roosevelt.

"I believe Roosevelt is a splendid type of the American citizen. The criticisms of the opposition are the best tributes ever paid to a president. He is not somebody's president. He is his own president. He is honest and square. They say he will make mistakes, but what mistakes has he made thus far? Suppose he does make mistakes. The American people do not think any less of an official if he does err, provided he is honest, and that is what Roosevelt is. That's why they are going to elect him. He cannot be controlled. He is the kind of president we want."

Mr. Chas H Morgan, of Denver Col. arrived in the city yesterday on business.

The Eagles' Carnival

Realizing that the time in which to prepare for their carnival is brief, the Eagles are laboring industriously to have everything in readiness by July 11, the opening day. Charles S Fox advance agent of the Dixie Carnival Company arrived in Padenton this morning and was busily engaged both this morning and afternoon, conferring with J F Hinkle and others prominent in carnival affairs relative to making arrangements for the installation of the various features, so as to have everything in shipshape by the opening day.

"Wherever our attractions have appeared we have secured good press notices," said Mr Fox. "The 1000 features of the show we provide, and they are all good. Free attractions will be given both in the afternoon at 3 o'clock and in the evening at 8 o'clock. They consist of Berger Bros, in hand-in-hand and head-to-head balancing and feats of strength. At 4 and 9:30 p m Dana Thompson will make his sensational high dive from a 96-foot tower into a tank containing but four feet of water, turning a somersault in the air and striking the water head foremost."

The official program of the carnival furnishes the following features:

The electric palace, showing the statue turning to life, an optical illusion taken from the myth of Pygmalion and Galatea; Trilby, the flying woman, who seemingly defies the law of gravitation and floats around at pleasure; Jimmy Roberts; the blackface comedian from Koster & Biss's, New York and a reproduction of the eruption at Mt Pelee.

Sanson, said to be the largest anaconda on exhibition. The snake is 27 feet long and weighs 300 pounds. It is said to have killed two men before it was captured.

Ornamental glass blowers, who spin more than 200 articles and give them away to visitors as souvenirs of the exhibition; Esau, the Egyptian, who sits in a cage surrounded by venomous snakes, which he is said to handle and feed on at pleasure; the Swallow, a mechanical production showing more than 500 automata in perpetual motion; the laughing palace the Ferris wheel, merry-go-round, Dixie land, a Malay wonder, Luna, a reproduction of the assassination of the late President McKinley by Czolgosz, the anarchist, and other features.—East Oregonian.

Only costs about 5c per yard more than common plaster, and worth many times over.

ADVANTAGES

No danger of freezing as it can be used in zero weather. Being flexible instead of brittle—as all sand mortars are—it will dent like wood when struck or jammed, instead of breaking Doors, windows, pipe holes, etc are easily cut through it. It is a non conductor of electricity and thus prevents short circuiting. It adheres equally well to brick, stone or common lath. It contains no acids nor chemicals to corrode. It will not burn nor disintegrate by fire being a perfect protection for wood frame work. It will under no condition pit or blister.

Parties having plastering to do should consult me regarding this class of work. Estimates cheerfully given.

acre, giving three years in which to pay for it.

Our terms of payment are 55 per cent of purchase price, cash; balance in three yearly payments bearing interest at the rate of six per cent per annum.

The purchaser can remain where he is make no immediate change in his business or home interests making his present business pay for his investment sacrificing no time while the orchard is being brought into bearing condition and rest assured that skilled horticulturalists will do the work better than he can unless he has had horticultural experience under conditions existing in Oregon. After trees have had scientific care pruning and shaping for three years, the subsequent work is much more methodical and can be successfully done by these without horticultural skill.

As an investment it is a safe edge; and is the nearest possible approach to a guaranteed annuity.

We have all our work done by contract and the contractors are under heavy bonds to us for the faithful performance of their work.

We have executed a bond to the amount of \$10,000 and have appointed Hon J M Church, cashier of the La Grande National Bank, trustee to indemnify any parties purchasing land on the Grande Ronde Valley Fruit Farm from us who may suffer by our not fulfilling our obligations.

My Lady's Jewels

Certainly add to her attractiveness. The poet who wrote that "Beauty unadorned is adorned the most" probably had no dollars. He certainly showed little sense. And if his lady love had seen my display of
