VOLUME III

LA GRANDE, OREGON, WEDNESDAY EVENING, AUGUST 10, 1904

NUMBER 234

FOLEY WILL RESIGN

Has To Much Business of a Personal Nature to Attend to Affairs of the City.

Mayor J E Fol-y yesterday evening snoomed that he found his personal business interests were such that he could not do bimself or the city justice longer by noting as cheif executive of the city and that he had notified the councilmen that at the next meeting he would band in his registation. He notified them so they could have plenty of time to select his successor

The fact leaked out last evening and soday there has been no small amount of comment, some knowing that the Mayor was just starting on extensive improvements gave bim credit for the truth of his statement others are of the opinion that he and the council do not exactly agree on certain policies, the principal one being that the mayor is in favor o! raising saloon liscenes the primary object being not only to increase the revenue to the city but to decrease the number of saloons. The mayor is backed up by not a few of our citizens who in the abstract are not opposed to saloons, but are afraid that since we have had 18 to 20 salo na for several years, which only pay a hiscerse of \$400, unless the number in materially decreased a local option wave might wips them all out.

However Mr Foley states that personal business interests compel him to resign and it is presumed that his resignation will be accepted at the next regular meeting in September unless a special meeting is called for this purpose and from now until then for warm weather recreation we can mayor.

Mr Collier Returns.

Mr John Collier has just returned rom New York and Chicago marke's where he purchased a large fall and winter stock of merchandise. This is Mr Collier's second trip and he believ on that when his stock arrives their patrons will egree with him that a patrons will egree with him that a far as a result of the siege of Pert Ar-personal vitit to the great markets, thur aggregate 24,000 men give him a better chance to make re lections and at prices that can by ob tained in no other way.

He reports the weather very warm in the east but seide from dulleuss in business usual at this time of the yes: which may also be attributed partially to presidential year the business r en are preparing for an unusually heavy fall trade in all lines. Mr Collier spent two days at the St Louis fair and like all others who have returned reports it immense and regrets that be could not have remained longer.

DRIVEN FROM CRIPPLE CREEK

Victor, Colorado Aug. 10-Former Mayor W J Donnelly has decided to remove with his family from the Uripple Creek district in consequence of re-

peated warnings
"I believe my safety is in danger and I fear my store and house would be burned if I remained," said Mr Donnelly today.

The objection to Mr Donnelly's pres ence in the district comes from the toes of the Western Federation of Miners with which he has been an avowed sympathizer since the deportation of union miners was inaugurated.

The sewer system is worthy of our undivided attention if it proves as successful as its clewhere claim it is, universally adopted.

The city of Moscow Idaho is now putting in this system for the entire city. It is not only cheaper but better than all heretofors known manners of disposing of city refuse.

Business Change

PRESCRIPTION DECISION

If you knew that the recovery of some sick friend depended on the strength and purity of certain drugs or on the accuracy of their compounding, what points would you consider when deciding where to take the prescription? The essential requirements, we think, are these, and all of them apply to this store: Diugs are sure to be freshest where trade is largest. Stock is sure to be best where physicians go to buy. Remedies are most reliable where standardized and assayed drugs are used. Compounding will be most accurate where the prescriptionist has had greatest practical
