TWO DROWNED IN COLUMBIA RIVER

Portland Aug. 27.—A. B. Smith and an unknown young man were drowned yesterday evening in the Columbia river at Scott's Landing by the capsizing of a small boat. An hour after the accident the bodies were recovered and taken to La Crosse.

The men were in the employ of the Columbia River Paper company in the capacity of deckhands. They were on the barge Vigilant and near the scene of the accident it was decided to cast anchor. The men embarked in a small boat to carry a line to the shore not far distant. Before they had proceeded far from the barge the craft in which they had taken passage capsized and the occupants were soon struggling in the water. Planks were thrown them but now they could be seized the men sank from sight neither being able to swim. It is said by those who witnessed the tragedy that the small boat was in a very unseaworthy condition. The assertion is made that it began to take water immediately after leaving the barge.

Very little is known of the victims of the accident. They recently arrived in Portland from the east.

Nothing New

Chic. Foo, Aug. 28—No new de-

velopments are visible in the situation at Port Arthur.

Nothing is known of the result of the furious cannonading within the port. The Japanese guns continue to pour in volley after volley, the cannonading being tremendous.

The Japanese occupy all the position gained. The Russian fire is perceptibly weaker but whether from damages by the Japanese or a conservation of strength can only be guessed.

QUIET AS SHANGHAI

Washington, Aug. 26.—Admiral Stringer cables the state department from Shanghai that everything is quiet and the supposed incident regarding the Russian ships is cleared.

SUPPLIES FOR BALTIK FLEET
Constantinople, Aug. 26.—The Russians Navigation Company's steamers Yenomia and Metior laden with coal and fresh water, passed the Bosphorus this morning on the way to join the Russian Baltic squadron.

CREW LINER CAPTURED

Tokio, Aug. 26.—It is reported here that a Russian steamer from Port Arthur has been captured by a Japanese warship and taken to Sasebo.

ITALY NO MEDIATOR

St. Petersburg, Aug. 26.—Russia to-day states there is not the slightest foundation for the report that Italy suggested to France an offer of her good offices in behalf of Russia.

JAPAN HOLDS THE PRIZE

Tokio Aug. 26.—Formal mortification has been sent by Japan to the Chinese government that the Japanese will not accede to the demand of China for return to Roshshun of the torpedo boat destroyer, Ryeshiteln seized in Cheo Foo harbor.

No Strike

The Union papers both report that work on the La Grande City hall has been delayed on account of a strike.

The wish in this instance must have been the father of the thought, as at no time has there been any strike or any suggestion of one. Contractor Slader has not been delayed an hour since starting, and has and is pushing the work right along. 2250,000 brick buildings are not built in a day, but there has never been a brick building built in this city that has reached the advanced stage in its construction as the city hall has in the same given time.

The county teacher's institute convenes in Elgin Monday. Nearly all the teachers in the city will be there during the session.

Mr. and Mrs. F. K. Noordhoff have just returned from an extended visit among relatives in Missouri, South Dakota and Iowa. They also spent one week at the St. Louis fair, which is an immense aggregation of grand sights. Mr. Noordhoff will teach in the High school this year.

Mr. and Mrs. H. Mathews of the Cove expect to move and occupy their home on Fourth street by the time school opens.

Mr. Fred Roth, the Walla Walla brewer, is in the city today.

Harland Ross, a milking man from Barton Vermont, is at the Foley House.

Miss Blanche Fair, of Kamela, is visiting friends in the city.

Members of the Kolts Klatch are requested to attend the special meeting Monday afternoon at the home of Mrs. Molitor.

Returns

Dr. Moore the Osteopath has returned from the East after an enjoyable as well as profitable trip, and is in active practice again ready to receive all those who wish to consult or be examined.—"Results tell," is the motto.

LA GRANDE SCHOOL of MUSIC

Opposite the Sommer House.

One of the best musical institutions in the state. Four rooms used for musical instruction, 15 grades of music taught. Department 2, 2 rooms used for the 3 first grades. Children at the age of 5 and older come one hour every day. Department 2, 2 rooms for grades 4 to 15 for pupils of all ages. The latest course best practical musical instruction. Musical contests for medals every few weeks.

HARD WALL PLASTER

Only costs about 5¢ per yard more than common plaster, and worth many times over.

ADVANTAGES

No danger of freezing as it can be used in zero weather.

Being flexible instead of brittle—as all sand mortars are—it will dent like wood when struck or painted, instead of breaking. Doors, windows, pipe holes, etc. are easily cut through it. It is a non-conductor of electricity and thus prevents short circuiting. It adheres equally well to brick, stone or common lath. It contains no acids nor chemicals to corrode. It will not burn nor disintegrate by fire being a perfect protection for wood frame work. It will under no condition pit or blister.

Parties having plastering to do should consult me regarding this class of work. Estimates cheerfully given.
