MAN KILLED ON BASKET MOUNTAIN

As He Walked Unsuspectingly Along a Lonely Mountain Road, Christopher Ellis Was Murdered by Unknown Parties---Ellis was 30 Years of Age.

Walla Walla, Wash. Aug. 30.—Woodchoppers who arrived in the city this afternoon from Basket Mountain 30 miles south of Walla Walla report the finding of the dead body of a man named Ellis who had been murdered. Ellis left the Cockburn ranch Friday morning having finished working during harvest. He had been paid off and had \$70 in gold. He had started to go to the home of his mother about ten miles from the Cockburn farm. When found he was lying near the roadside in a clump of bushes with a bullet wound in the head. Umatilla County officers are now searching for the murderer.

Pendleton, Or. Aug. 30.—As he walked unsuspectingly along a lonely mountain road Christopher C. Ellis, 20 years of age was shot down by an unknown assassin early Sunday forenoon. The tragedy occurred half a mile from Fletcher's sawmill on Basket Mountain 16 miles southeast of Milton Or. The cause of the killing is a mystery and the residents of the neighborhood are greatly excited. Sheriff T. D. Taylor has gone to Basket Mountain to personally investigate the affair. The coroner's jury this morning was unable to throw any light on the murder.

Ellis lived with Melinda Ellis his widowed mother in a small cabin near Fletcher's mill. It was not thought he had an enemy in the world and he never associated much with other young people of that locality. Ellis was unarmed when shot down.

He left home shortly before 10 o'clock Sunday morning. Less than half an hour later George Selby a neighbor found his corpse lying where the top of his head blown off with buckshot. The coroner's jury is of the opinion that the gun was fired at short range. Footprints of another person were found entering the road half a mile back of the place where Ellis was killed. The tracks did not stop until they passed the body 50 yards. They then turned into the woods and were lost. It was found later where these same footprints emerged farther back and were finally obliterated in the dust of the main highway.

Basket Mountain and the neighborhood of Fletcher's sawmill has been the scene of several tragedies. Jay Keith a halfbreed Indian disappeared from the mill several years ago. Long afterward a whitened skull with a bullet hole in it believed to have been Keith's was found in a remote ravine.

The Peitre cabin two miles from the spot where Ellis met his death was the scene of a man killing several years ago. Frank Fletcher and Peter Gaskill served terms in the Oregon penitentiary for this crime.

Justice of the Peace J. L. Miller of Milton acting coroner said:

"I am at a loss to account for the death of young Ellis. I believe he was shot from ambush. There was no evidence of a struggle and the footprints that passed the body did not pause. The man who fired would no doubt have stopped for a moment. Then too the dead boy was shot in front of the head. The mother declares her son did not keep company with any girl so she don't believe his killing was the result of a love affair. He had no money and the position of the body shows the murderer did not molest it after the shot was fired."

Fundamentals

To illness Osteopathy is the highest court of appeal: being the highest it is usually the last, but unless the recuperative powers of the body are entirely lacking the sufferer rarely appeals to vain as Nature intelligently aided is usually ready to re-establish normal conditions within the bodily mechanism.

WAS GIVEN UP TO DIE.

B. Spiegel, 1204 N. Virginia St., Evansville, Ind., writes: "For over five years I was troubled with kidney and bladder affections which caused me much pain and worry. I lost flesh and was all run down, and a year ago had to abandon work entirely. I had three of the best physicians who did me no good and I was practically given up to die. Foley's Kidney Cure was recommended and the first bottle gave me great relief, and after taking the second bottle I was entirely cured."

HARD WALL PLASTER

Only costs about 5c per yard more than common plaster, and worth many times over.

ADVANTAGES

No danger of freezing as it can be used in zero weather. Being flexible instead of brittle—as all sand mortars are—it will dent like wood when struck or jammed, instead of breaking. Doors, windows, pipe holes, etc are easily cut through it. It is a non conductor of electricity and thus prevents short circuiting. It adheres equally well to brick, stone or common lath. It contains no acids nor chemicals that corrode. It will not burn nor disintegrate by fire being a perfect protection for wood frame work. It will under no condition pit or blister.

Parties having plastering to do should consult me regarding this class of work. Estimates cheerfully given.
