

# FRUIT WANTED FOR ST. LOUIS

Three Telegrams Received From St. Louis Fair  
Which Should Receive Attention of  
Every Fruit Grower.

The following letter and telegrams are certainly self explanatory and the opportunity should be embraced. There is certainly no chance to lose anything in fact if we understood it, it looks like it would result in an actual profit in addition to the advertising that we would derive from such an exhibit.

We have a number fruit growers in this immediate vicinity that should make this matter up and push it through to completion. The worst feature so often in public matters that what is every body's business is no body's.

There should be some concerted action whereby Messrs Stackland and Hancock will be advised as what portion of the car this section can and will supply.

Cove, Ore., Aug 31, 1904  
Ed. Observer, La Grande

Dear Sir:—  
Enclosed find three telegrams which explain themselves, please notify the Union County public through your paper repeatedly to take hold and help us put out a car load of our finest fruit ready for packing 2 weeks hence not one or two boxes each but in a few up to 20 or 50 crates or boxes whatever they have of extra size and quality every grower gets credit for his own fruit and fair play for same. The amount remitted for the car by Mr. Galloway will be proportioned to all who put in fruit and nobody will be losers because after paying the freight and no com. half the gross sales should leave all of us fair money for the fruit this is certainly our opportunity to advertise Union Co. Oregon. Remember a whole carload of assorted fruit on exhibition at once is to our credit and no cost except the extra care required in putting up the best in the best manner. Let us know what you will put up for the car of each kind of fruit soon as possible

## Take Care of Your Trophies

I will pay from \$2 to \$10 for male deer heads handled according to directions. The dotted lines on back of neck and head show where to rip the skin. To bleed your game cut the jugular as low down as possible; never cut the throat. Commence to skin by making a cut from the base of the horn to back of the head thence down the back of the neck to top of shoulders then around the side to point of brisket, work the skin carefully away after wards remove the flesh when the eye is reached cut off those to skull, the cartilage and raise up the eye lid to avoid cutting it. When he tear pit is reached which is near the corner of the eye, work the skin out of the cavity through and expose the teeth, leave all the black lining on the lip, so all the shave. Unless salted well and dried in the shade your work is almost lost. Use nothing but salt. Cut as much of the flesh off the head as possible and dry the skin keep it from wrinkling. I will also mount your trophy at reasonable prices.
