Notice to Builders

I wish to inform the building public that I have opened a stone quarry on the Campbell place about two miles from town and am in a position to take all kinds of stone contracts at a great saving to the builder. There are several reasons why I can furnish this stone at a cheaper rate than hard stone dealer. The principal reason is that the stone is softer and can be cut and dressed at less expense than the hard stone now being furnished the trade. The quarry is nearer town and on a good hard road. This stone is not only first class foundation rock but can also be cut at a very slight cost for walls and fancy trimmings. If you are thinking of building let me know and I will convince you that you can build a stone building with this stone cheaper than with any other material now in use here. I carry a full and complete line of sewer pipe at all times. Jack Childs, Cor. Washington and Fir streets, La Grande.
