Items of Interest From All Over the State, Gleaned From Observer List Of Exchanges

The Oregon Irrigation Association will hold its third annual meeting at Ontario, Malheur county, on Sept. 19, 20, and 21. Extensive preparations are being made for the reception of the visitors by the thriving little city. Among the prominent people expected to be present are Governor Chamberlain, Senator Fulton, Congressman Williamson, and F. H. Newell, chief of the reclamation bureau.

Only five burial permits were issued by the Recorder of Pendleton during the month of August. This is the lowest record for any one month during the past ten years.

The livestock men of Malheur county have organized a protective association to rid the country of horse thieves: T. W. Halliday, president; First Bank of Vale, vice president; and J. S. Edwards, secretary.

An unknown young man was found dead in a city park at The Dalles, Saturday night, having taken carbolic acid. He is thought to have been an ex-convict because of the prison clothes he wore.

The Oregon City woolen mills advertised free transportation to expert spinners who would come to the mills permanently, and two young men from Indiana accepted the offer. They worked two days in the mills and then mysteriously disappeared.

Had The Snakes

We have often heard of individuals having the "snakes," after having gazed too long upon the wine when it was "several different colors of the rainbow," but according to The Dalles Chronicle there is a whole town which had them last week. The Chronicle says:

"Snakes is what Forest Grove had all last week, though it has the reputation of being a temperance town. It is no hallucination either; but the real thing. Early in the week a snake show came to town. The license for shows of that character is high and the showmen made an ineffectual attempt to have it reduced. But the city fathers would not see it that way and the license remained. Then a quarrel arose among the members of the company. One member turned loose the entire collection of snakes. In a few hours these snakes were scattered all over town. Wherever a man went there was a big bull snake, a young boa constrictor or perhaps a rattlesnake. Now the show has gone, but the snakes remain.

ASSIGNMENT OF TEACHERS

All preparations have been made for the opening of the La Grande Public Schools next Monday. The teachers are all ready and anxious to take up the great work of "teaching the young lion how to shoot." A new grade, the 12th, has been added to the course. The names of the teachers and their assignment of grades are as follows:

NOTICE FOR PUBLICATION

Department of the Interior
Land Office, La Grande, Ore.
July 14, 1904
Notice is hereby given that the following named settler has filed notice of his intention to make final proof in support of his claim, and that said proof will be made before the Register and Receiver of the U. S. Land Office at La Grande, Oregon, on August 31, 1904, viz: H. E. No. 327, Isaac Harris, of La Grande, Oregon, for the SW 1/4, SE 1/4, Section 20, NE 1/4, SW 1/4, SE 1/4, Section 21, Township No. 3, South, Range No. 2, E. W. M.

He names the following witnesses to prove his continuous residence upon and cultivation of said land, viz: Ernest H. DeLong, Neils Entrop,

In the river front site in Portland on Saturday evening, in which about \$50,000 worth of property belonging to machine shops and wholesale houses was destroyed, the "George H. Williams" Portland's new fireboat, utterly failed to extinguish the fire, because of the incompetency of a stoker on board.

The new government dredge, Wallowa, was launched at Riparia Saturday. The boat has been under construction for several weeks and is now completed with the exception of the installation of the machinery.

The coroner's jury upon inquiry in to the death of the young man found dead in The Dalles last Saturday, rendered a verdict finding that the deceased came to his death by an over dose of morphine sulphate, and by taking carbolic acid. He had registered at the Obar hotel as J. W. Smith, Sumnerland.

Appendicitis, Pneumonia and Typhoid

Such frightful crises in life as appendicitis, pneumonia and typhoid fever are the result of blocked nutrition—that is to say, interrupted nerve or blood supply in definite areas of the anatomy. In appendicitis the seat of interference is near the union of the large and small intestines, in the small vesicular, or remnant, stomach known as the vermiform appendix; in pneumonia the inflammation is in the lungs; in typhoid fever it is in the lining of the intestines. Osteopathy lifts such blockades and removes the causes of inflammation wherever they are established, and, if it is applied in time, it aborts the oncoming of these localized inflammatory maladies.

HARD WALL PLASTER

Only costs about 5c per yard more than common plaster, and worth many times over.

ADVANTAGES

No danger of freezing as it can be used in zero weather. Being flexible instead of brittle—as all sand mortars are—it will dent like wood when struck or jammed, instead of breaking. Doors, windows, pipe holes, etc. are easily cut through. It is a non conductor of electricity and thus prevents short circuiting. It adheres equally well to brick, stone or common lath. It contains no acids nor chemicals to corrods. It will not burn nor disintegrate by fire being a perfect protection for wood frame work. It will under no condition pit or blister.

Parties having plastering to do should consult me regarding this class of work. Estimates cheerfully given.
