## DICK P SUTTON'S BIG SHOW

When a man sees the great big red printed figures on the dead walls about town denoting extremely popular prices in connection with a theatrical performance, he should not, even, if he thinks his taste is of a very superior quality present his criticism of such a show, after having seen it, as is he were sitting in judgment upon Richard Mansfield or some other creature of Thespian world with such rare gifts as to be able to elicit the applause of the cultured man and women of metropolitan life. He should bear in mind that he is being offered something for comparatively nothing and that if it serves to please him for an hour or two and incidentally give him an insight, whether it be in exaggerated form or not, into a life that does not enter into his daily existence, his money has been well expended.  
The Sutton company will present for the opening play "A Ruined Life" a comedy drama in four acts. The latest moving pictures and specialties will be given.

## HARD WALL PLASTER

Only costs about 5c per yard more than common plaster, and worth many times over.  
**ADVANTAGES**  
No danger of freezing as it can be used in zero weather. Being flexible instead of brittle—as all sand mortars are—it will dent like wood when struck or jammed, instead of breaking. Doors, windows, pipe holes, etc are easily cut through it. It is a non conductor of electricity and thus prevents short circuiting. It adheres equally well to brick, stone or common lath. It contains no acids nor chemicals to corrods. It will not burn nor disintegrate by fire being a perfect protection for wood frame work. It will under no condition pit or blister.  
Parties having plastering to do should consult me regarding this class of work. Estimates cheerfully given.
