

FAMILY FUED IN GEORGIA

Altman Bros. Defy Arrest, Riot on Sunday's Excursion Train.

(Observer Special)

Cordelle, Ga., Sept. 17—About fifteen friends of Charles and Hilliary Altman are standing guard with loaded rifles at the Altman home in Eddy Fat, near the Florida-Georgia state line. The brothers are accused of killing Jackson Duncan and wounding his brother Marshall during a fight on an excursion train Sunday.

ONLY OVER DEAD BODIES

The Altman's guard say the sheriff can make arrests only over their dead bodies.

Jim Riley a negro was also killed during the fight on the train but was taking no part in the trouble.

Today W. M. Duncan father of the

Duncan boys was shot four times from ambush. He lives near Baxter, six miles from Eddy. The shooting was probably a result of the riot on the train.

FIRED ON DEPUTY

It is reported the sheriff has asked for a militia company to help arrest the Altmans.

Deputy Sheriff Thrift was fired upon by a crowd at Baxter, Fla., when he attempted to arrest the two Altmans.

Citizens prevailed upon the deputy to make no further attempt at arrest until the sheriff arrives. More trouble is expected when it is attempted to take the Altmans to prison.

Take Care of Your Trophies

I will pay from \$2 to \$10 for male deer heads headed according to directions. The dotted lines on back of neck and head show where to rip the skin. To bleed your game cut the jugular as low down as possible, never cut the throat. Commence to skin by making a cut from the base of the horn to back of the head thence down the back of the neck to top of shoulders

thence around the side to point of brisket, work the skin carefully away from the base of the horns. When the ear is reached cut off those to skull, afterwards remove the flesh when the eye is reached run the finger in from the outside and raise up the eyelid to avoid cutting it. When the tearpit is reached which is near the corner of the eye, work the skin out of the cavity with the point of the knife. When the corner of the mouth is reached cut through and expose the teeth, leave all the black lining on the lip also all the cartilage on the nose. Salt heavily and roll up for 24 hours then dry in the shade. Unless salted well and dried in the shade your work is useless. Use nothing but salt. Cut as much of the flesh off the head as possible and work the brain out the hole at back of head. Save the under jaw bones and drying the skin keep it from wrinkling. I will also mount your trophies at reasonable prices.
