Car Struck Dynamite

Special to the Observer

Melrose, Mass. Sept. 22—A terrible accident happened here tonight on the electric line between this city and Boston when an outbound car struck a charge of dynamite and was blown to pieces. Six passengers were killed outright, some of their bodies being torn into particles. Several were fatally injured and at least fifteen severely hurt.

THE CAUSE OF THE WRECK

A later dispatch says: The police announce the cause of the wreck was the striking of a fifty-pound box of dynamite fallen from an express wagon just ahead of the car. The driver discovered that the box had dropped off and rushed back to take it off the track. Before he got within a hundred yards, the car came along and was blown up. Fenton, the driver, was taken into custody by the police.

NINE DEAD NINETEEN HURT

Melrose, Mass. Sept. 22—Six passengers were killed outright and three have died since the accident. Nineteen others severely injured have been placed in hospitals. Some persons in the vicinity of the explosion were badly cut by flying glass and splinters. For more than three hours the greatest confusion reigned. Thousands of people rushed about the scene in search of relatives or friends. The hospitals were beset.

BEST COUGH MEDICINE FOR CHILDREN.

When you buy a cough medicine for small children you want one in which you can place implicit confidence. You want one that not only relieves but cures. You want one that is unquestionably harmless. You want one that is pleasant to take. Chamberlain's Cough Remedy meets all of these conditions. There is nothing so good for the coughs and colds incident to childhood. For sale by All Druggists.

HARD WALL PLASTER

Only costs about 5c per yard more than common plaster, and worth many times over.

ADVANTAGES

No danger of freezing as it can be used in zero weather. Being flexible instead of brittle—as all sand mortars are—it will dent like wood when struck or jammed, instead of breaking doors, windows, pipe hokes, etc are easily cut through it. It is a non conductor of electricity and thus prevents short circuiting. It adheres equally well to brick, stone or common lath. It contains no acids nor chemicals to corrods. It will not burn nor disintegrate by fire being a perfect protection for wood frame work. It will under no condition pit or blister.

Parties having plastering to do should consult me regarding this class of work. Estimates cheerfully given.
