DICK P SUTTON'S BIG SHOW

When a man sees the great big red printed figures on the dead walls above town denoting extremely popular prices in connection with a theatrical performance, he should not, even, if he thinks his taste is of a very superior quality present his criticism of such a show, after having seen it, as he were sitting in judgment upon Richard Mansfield or some other creature of Thespian world with such rare gifts as to be able to elicit the applause of the cultured man and women of metropolitan life. He should bear in mind that he is being offered something for comparatively nothing and that if it serves to please him for an hour or two and incidentally give him an insight, whether it be in exaggerated form or not, into a life that does not enter into his daily existence, his money has been well expended.

The Sutton company will present for the opening play "A Ruined Life" a comedy drama in four acts. The latest moving pictures and specialties will be given.

Picking Hops

The attendance will not be large till after the picking and fruit season is over, and then there is expected to be a shortage of room to accommodate the pupils.

Take Care of Your Trophies

I will pay from \$2 to \$10 for male deer heads hauled according to directions. The dotted lines on out of neck and head show where to rip the skin. To bleed your game cut the jugular as low down as possible never cut the throat. Commence to skin by making a cut from the base of the horn to back of the head thence down the back of the neck to top of shoulder

thence around the side to point of brisket, work the skin carefully away from the base of the horns. When the ear is reached cut off those to skull, afterwards remove the flesh when the eye is reached run the finger in from the outside and raise up the eyelid to avoid cutting it. When the tearpit is reached which is near the corner of the eye, work the skin out of the cavity with the point of the knife. When the corner of the mouth is reached cut through and expose the teeth, leave all the black lining on the lip also on the cartilage on the nose. Salt heavily and roll up for 24 hours then dry in the shade. Unless salted well and dried in the shade your work is all lost. Use nothing but salt. Cut as much of the flesh off the head as possible and work the brain out the hole at back of head. Save the under jaw bones when drying the skin keep it from wrinkling. I will also mount your trophies at reasonable prices.
