Finnigan's Ball

which comes to Stewards Opera House has outlived all the similar organizations which sprung up after the success of Berry and Fay fifteen years ago. It is a shining example of "the survival of the fittest" for the management of Finnigan's Ball has never deceived the public and always given more than was promised. The present company is headed by Gallagher and Barrett, a team that have no rivals in legitimate Irish comedy. A large chorus of pretty girls are a feature. Friday the 21.

HARD WALL PLASTER

Only costs about 5c per yard more than common plaster, and worth many times over.

ADVANTAGES

No danger of freezing as it can be used in zero weather. Being flexible instead of brittle—as all sand mortars are—it will dent like wood when struck or jammed, instead of breaking. Doors, windows, pipe holes, etc are easily cut through it. It is a non conductor of electricity and thus prevents short circuiting. It adheres equally well to brick, stone or common lath. It contains no acids nor chemicals to corrods. It will not burn nor disintegrate by fire being a perfect protection for wood frame work. It will under no condition pit or blister.

Parties having plastering to do should consult me regarding this class of work. Estimates cheerfully given.
