Judge Parker's

Judge Parker in a recent speech from his Veranda, we would call it porch, is quoted as saying:

"After our utter defeat of the Spaniards, the Republican Administration peid to the Spandiards \$20,000,000 for this uncertain option of the Philippines. In the attempt to boister the option, we have wasted there \$659,000 000 of the people's money and sacriticed 200,000 lives."

This astounding statement is not by Senator Fairbanks in his speech at Troy New York and the actual figures given as follows:

"This statement the Senator declared was unsupported by the official records of the Government. "Up to the 30th of last June," he said, "a total of 122,401 enlisted mer and 4087 officers were sent into the Philippines. If all the enlisted men and officors had died in the archipelago the total number would have fallen short of the number of lives alleged to have been escrificed by nearly 75,000. The record of total asualties of every kind and description up to June 30, last amounted to 40,354. Of this number 4067 were enlisted men and 155 offices The casualties among the constabulary of the islands of all kinds have been about 600, about 100 of whom were Americane. The casu-lties among the Filipinos, added to those among the Americans, wound constitute but's small fraction of the losses estimated by the opposition. We should bear in mind the fact that many of the casualties which have occurred have been caused by the encouragement held out to the insur-gents by the opposition. They were led to resist the assertion of the sovereignty of the United States by the hope of Democratic success.

"I is estimated by the War Department that the total expenditures do not exceed \$200,000,000 or \$4.0,000 000 less then the estimate of the opopsition We should bear in mind that the cost of maintaining the civil administration in the Islands is born by the insular treasury and not by the treasury of the United States."
