THE PEOPLE KNOW

Mr Cleveland in his first and only speech, while surrounded by an admiring crowd, said in referring to the prosperity which the Republicans boast about. "They, the people, will challenge the claim of a party which boasts of a prosperity it has wrought which gives to its pampered favorites added opportunities to increase their riches, while the poor, or those who toil, wait like Lazarus, to be fed with the crumbs which fall from the rich man's table." Grover Cleveland must have been so delighted with the support he received in 1893-4-5 and 6 from the business men of New York City that he failed to notice the clamor for a chance to work by "those who toil" and the soups houses that were provided for the starving workmen, women and their children, or he would not have referred to "the poor or those who toil, like Lazarus to be fed with the crumbs from the rich man's table."

The American working people do not wait for crumbs from other men's tables when they can get employment. Mr Cleveland knows that at no time in the history of this nation has there been so much demand for labor, and at wages so high as since the Republican party regained control of the White House and Congress. He knows that more working people were fed by charity during the last year of his administration than in all the years since. He knows that today there are not less than three million more wage earners employed in the United States than there were during the last year of his administration. He also knows that the wage money that has been paid to those who toil in the United States this last year exceeds that paid in any year of Democratic administration by more than a billion of dollars. If Cleveland don't know these things the people do. There were paid to the wage earners in the factories in the United States in 1900 for work performed by 5,306,143 laborers therein \$2,320,938,168, and that same year the factories paid out for material \$7,343,627,875 and the 512,191 factories that paid out this 9,564,566,043 for labor and material turned out products to the value of \$13,000,148,159 in the year 1900.

The New York Herald now concedes the election of Roosevelt. The Herald is some little time behind the people of the United States but it is catching up.

More than 7,000,000 pounds of currants were exported from Kalamata, Greece, to the United States in 1903

Mr Davis points with pride to the fact that he made twelve speeches without feeling tired. The audiences are too much exhausted to report.

How dear to my heart is the old-fashioned washboard That mother used to wash on when I was a boy, With its zinc-covered ridges the suds used to play in And soap bubbles gambled to my childish joy. Ofttimes have I watched her when wearing her knuckles. As over the ridges our duds she would rub. I ne'er will forget how she splashed and she slathered. The old fashioned wash board that stood in the tub.

CHORUS

The old fashioned washboard; The zinc-covered washboard; The back-breaking washboard that stood in the tub. Some folks always kick about up-to-date laundries, And say they wear out their clothes every day; But give them to me, so I will have a hot dinner At home, with the smell of the soap suds away. I know that the washing machine is much easier On all of our clothes than to take them and rub Till the buttons on J bosoms are lost and worn out; By the old-fashioned washboard that stood in the tub. We are not the old fashioned kind.
