PROGRESS UNDER TARIFF

Our progress under the Dingley tariff has been such that we no longer compare the United States with other nations, but with all the rest of the world combined. With less than 5 per cent. of the population and only 7 per cent. of the area, we are, nevertheless, about equal industrially to half the remainder of mankind. We equal or surpass all the rest of the world in corn, cotton, eggs, petroleum, leather products, copper and forest products. Of the following we produce two-thirds as much as the rest of the world: Coal, pig iron, steel and three-fifths of the total food and agricultural products and manufactures. We produce one-half as much as the rest of the world in silver, iron ore

fish; one-third as much in gold, wheat, oats, hay, butter and cheese; one-fourth as much in hops and beer; one-fifth to one-tenth as much in barley and wool. We consume, reckoned in value, twice as much corn as all the rest of the world combined, one-fifth as much wheat, one-third as much oats one-third, as much cotton, one-fifth as much wool, one-third as much sugar, one-half as much fish, nearly as much coffee, one-fourth as much tea about three-fifths as much meat—all food and agricultural products. We have one-third as much wealth as all the rest of the world, one-third as much gold, one-fifth as much silver one-tenth as many sheep, one-third as many cows, as much for-st area,

two-thirds of the railroad mileage, or counting total track about as much as all the rest of the world combined. We have twice as much life insurance in force, one-half as much savings bank deposits, we spend two-thirds as much for education we have one-fourth the spin'les in operation nearly one-fourth as much shipping one-fourth as many exports, about one-tenth as much revenue and expenditures and less than one-thirtieth as much debt.

Taking everything into consideration we produce and consume about half as much as the rest of the world combined. Remember, the comparison is not with the world but with all the rest of the world besides ourselves.

AMERICANS LEAST TAXED

The expenditures of our Government in their aggregate, as exhibited by the appropriations of Congress are large, and by unthinking persons and especially by misguided newspapers, are denounced as extravagant, and yet according to the very best authority, our National Government is the most economically administered of any in the civilized world.

The following table, compiled and officially published by the Bureau of Statistics of the Department of Commerce and Labor shows the population expenditure, and per capita expenditure in the more important countries of the world in the latest available year:

Country	Population*	Expenditure*	Per capita
New Zealand	2	\$ 80	\$38.88
Australia	3	142	87.69
U Kingdom	41	897	21.39
France	38	695	17.84
Belgium	1	116	17.40
Paraguay	1	11	17.30
Aus. Hungary	45	647	14.27
Argentina	4	60	12.68

Ger. Empire	58	553	9.45
Canada	5	60	9.30
U States	80	640	7.97

*The figures in the population and expenditure columns represent millions.
