Half a Carload of New Wall Paper.
 We have just received half a car load of the newest and latest wall paper. Half a carload means 20,000 rolls. This is more paper than any one firm ever thought of bringing into this county in a single season.
 This paper is all for sale and must be sold this season. We have brought two first class paper hangers direct from Chicago, who are without doubt the most skillful workmen in Eastern who, with the five first class paper hangers already in our employ, gives us the best working force in the Inland Empire.

Loses Hay By Fire

Boise City, Nov. 1.—Ed Evans who resides on the Lemp section two miles north of Meridian lost two hay stacks by fire yesterday and only saved three others by hard work.
 The fire was unquestionably caused by spontaneous combustion. Some of the neighbors about 10 o'clock in the morning, were startled to see a space of about 10 feet on the side of one of Mr. Evans' stacks burst outward as if caused by flames. The alarm was quickly given and everyone in that vicinity turned out and lent a helping hand. There were five stacks in the yard, two of which were destroyed. The other three were covered with sheets and bed clothing and by throwing buckets of water on them they were kept so damp the fire could not get a foothold, though the flames from the other stacks were very hot.
 Clover hay, when put up damp it is said, not infrequently beats in the stack, to such a temperature that it will start a blaze. No other variety of hay will do this. Mr. Evans' hay was clover, so that the cause of the fire is not difficult to account for.

the south and Fengwang Cheng. There is no official estimate of the strength of the Japanese reinforcements but the correspondents place it at from 40,000 to 50,000. It is believed that the Japanese force has been augmented both from Port Arthur and Japan, whence understood every available man is being drafted. It seems to be assured that the Japanese will be able to meet Kurapatkin on almost if not quite an equal numerical footing. The mere fact that they are again threatening a double flanking movement indicates Oyama's confidence that he has a sufficient force at his disposal.
 Kurapatkin is confronted with an exceedingly difficult problem. He is pitted against a Japanese force stronger, even despite recent losses than that opposing the southern advance. If Kurapatkin succeeds in checking or even breaking the Japanese formation it will open large possibilities for the brief remainder of the year's campaign. On the other hand a Russian reverse will now render their position exceedingly critical.
 Dispatches indicate a resumption of the fighting at both extremities of the Russian front. On the night of October 30 the Japanese attacked the Russian entrenchment east of Sinchinbu but were repulsed though the bombardment continued throughout the night.
 The Japanese advance has begun at Tunganon where it encountered a heavy Russian fire. Thus it appears that the Japanese are becoming aggressive along the whole front from Bentsapsutz east to Sinchinpu. This probably makes the battle front about the same as when Kurapatkin began his southern movement. The latest reports from Port Arthur are by no means encouraging. Stoessel is making a good defense, but the Japanese are approaching now by parallels confessedly close to important Russian fortifications.

the absence of suitable reservoir sites in the entire district.
 When asked about the status of the work of the reclamation bureau in Umatilla county, John T. Whistler said to the East Oregonian today:
 "Since the recommended abandonment of the once proposed reservoir site in the Butter creek country, the government has had a small reconnaissance party out all summer working in this county, or more properly speaking, in the basin of the Umatilla river, and the exploration of the basin has been from the standpoint of the reclamation bureau, absolutely thorough."
 "This reconnaissance party has examined in detail every little branch of the Umatilla river and of Butter creek as well, and in addition has thoroughly investigated the possibility of diverting the waters of the John Day to Umatilla lands.
 "No site for a reservoir has been found anywhere in the Umatilla basin. A depression has been noted in the region north of the old abandoned site, which will be examined further, but it is feared that even if it proves to be of sufficient size, that test pits will show it underlain with a stratum that will disqualify the location, just as the other site was disqualified.
JOHN DAY NOT FEASIBLE
 The examination of the John Day region has been equally thorough, and it has failed to disclose any suitable means or way of diverting water to any extent in its upper portions. As the investigation proceeds down the John Day there are fewer and fewer indications of the practicability of either diversion or storage. This concluding work, in the lower portion of the John Day basin, will be finished this month.

Guntheries Candies
 All the essence of purity. As you can easily convince yourself by test. Bon Buns and Chocolates—assorted Chocolates—assorted Bon Buns—60 cts. and up.

A THOUGHTFUL MAN.
 M. M. Austin of Winchester, Ind., knew what to do in the hour of need. His wife had such an unusual case of stomach and liver trouble, physicians could not help her. He thought of and tried Dr. King's New Life Pills and she got relief at once, and was finally cured. Only 25c, at La Grande Drug Co., and Newlin Drug Co., Drug Stores.
