

HAIR BRUSHES

In buying hair brushes, and all other brushes, we look out for points that might escape the notice of customers but which have everything to do with the life and service of the brush.

The construction, material, manner in which bristles are fastened, etc., are all important. The brushes you get here are such as you would seek were you a brush expert.

GOMBS

We are as particular in buying combs as we are in selecting brushes. In either line we are able to give you the best possible value for your money.

SICK FROM HAZING

Chicago Nov. 1.—As the result of a hazing in which seven Northwestern University freshmen were forced to walk blindfolded from an ice chute into 30 feet of water in an old clay hole three of the victims are in a serious condition and are threatened with pneumonia, while the others are just recovering. They were seized by a party of upper classmen Friday morning.

The young men were paraded bareheaded under a guard about the streets then kept close prisoners without food the whole day. At 10:30 o'clock that night they were again required to fall into line and march through the center of the town, give college yells and climb in and out of a fountain.

They were marched about the principal streets until midnight then marched to South Evanslyn, to a deserted clay hole. On the side of the clay hole stands some old icehouses and from the side of one protrudes a chute extending over the water about 40 feet. The freshmen were blindfolded and informed they were about to die.

One by one they were marched up the rickety ladder then out on the plank which terminated at the edge of the ice chute. A vigorous push hurled each to the water below. After clambering out of ice water the freshmen were compelled to walk home in their wet clothing.

WATCH MAGNETIZED

In these days of the increasing use of electricity the danger of having your watch magnetized is greater than in the past. I am in shape to demagnetize your watch right away and put it in as good shape as when it left the factory. There is no necessity of running the risk of having your watch lost or broken sending it away when you can get it made as good as new at home by a practical workman at a low cost.
