We sell shoes, and nothing but shoes

This is our business, and this is all we know. We grew up to it from the bench; we know good stock when we see it, and patrons who know us, expect good goods, and we never disappoint. Our reputation is behind every pair we sell. We know we sell the best line of ladies' and men's \$3.50 shoe in the county and so will you if you buy a pair.

FRIDAY EVENING, NOV. 11, 1904

Every county in the state went Republican.

The Socialists cast 1849 votes in Multnomah county, only 475 less than cast for Mr. Parker.

The world does move. Missouri will send a Republican to the United States senate.

It is evident the people of this state are in favor of Local Option but are not in favor of prohibition

W L Douglas, the most widely advertised shoe manufacturer in the United States, was elected governor of Massachusetts over Governor Bates, Republican, who was a candidate for the third term.

President Roosevelt was not slow in announcing that while he was not elected the first time, he considers his first three and one half years as his first term and will under no circumstances consider the idea of a third term.

MONEY IN CIRCULATION

The Monthly Circulation Statement for November reached the Observer on Friday direct from the United States Treasury Department, from which we learn that on Nov. 1, 1904, there were \$2,848,292,930 of money in general stock in the United States of which \$1,263,047,081 were gold and \$669,670,333 silver; \$346,681,016 green backs, \$457,281,500 National Bank notes and \$11,613,000 Treasury notes.

On Nov 1 there were \$264,816,269 held in the United States Treasury as assets of the government which being deducted from the money in stock left \$2,583,476,661 in circulation among the people on that day; the largest amount ever in circulation.

There were 82,329,000 people in the United States on Nov. 1 and a per capita circulation of \$31.34, the largest per capita in the history of the nation.

In 1800, the earliest date of which the Observer has official figures, the per capita circulation was \$5; in 1860 it had increased to \$13.85; in 1893 the first year of Cleveland's last administration it was \$24.08 but on 1896 the last year it had fallen to \$21.41; in 1897 it rose to

\$22.87; in 1900 it was \$26.94; in 1903 it had increased to \$29.42 and on Nov. 1, 1904 reached \$31.88.

There are now \$9.97 more money per capita in circulation among the people than there were at the close of Cleveland's last administration, and \$17.53 more than in 1860, the close of Buchanan's administration, the last Democratic president prior to Cleveland.

The above figures demonstrate that under Democratic low tariff money does not accumulate in the United States as it does under Republican tariff.

How dear to my heart is the old-fashioned washboard
That mother used to wash on when I was a boy,
With its zinc-covered ridges the suds used to play in
And soap bubbles gambled to my childish joy.
Ofttimes have I watched her when wearing her knuckles
As over the ridges our duds she would rub,
I ne'er will forget how she anshashed and she anshaterap
The old fashioned wash board that stood in the tub.

CHORUS

The old fashioned washboard;
The zinc-covered washboard;
The back-breaking washboard that stood in the tub.
Some folks always kick about up-to-date laundries,
And say they wear out their clothes every day;
But give them to me, so I will have a hot dinner
At home, with the smell of the soap suds away.
I know that the washing machine is much easier
On all of our clothes than to take them and rub
Till the buttons and bosoms are lost and worn out
By the old-fashioned washboard that stood in the tub.
We are not the old fashioned kind.
