## Os-te-op-a-ty

How reasonable comes the explanation of Osteopathy to the mind that has lost its prejudice! Familiar forms of speech confirm the reasonableness of Osteopathic theory. People speak of being under a "nervous tension" of being "frozen with horror"; of feeling the "heart rising in the throat," etc, all of which are idiomatic expressions of scientific facts. They indicate a common knowledge of the fact that nerve activity or excitability reacts upon the muscles of the body and throws them into contraction. The man who examines himself just as he is recovering from a strong nervous tension finds that he was just as truly under a muscular tension, that he has been sitting with drawn muscles, clinched hands, bated breath. He relaxes, sometimes collapses after the strain is past.

While repairing his house Saturday afternoon C W Watkins lost his balance and fell to the ground suffering a fracture of his right arm. Dr Biggers reduced the fracture and he is resting as easy as the circumstances will permit.

## Notice Of Final Account

Notice is hereby given that the undersigned, Administratrix of the estate of William Spencer, deceased, has filed in the County Court of Union County for the state of Oregon her final account as such administratrix, and the Court has fixed Monday the 19th day of December 1904 for hearing any objections to said final account and for the final settlement thereof. Dated this November 19, 1904. Minnie M Spencer, Administratrix

TO TAKE WELL

doesn't always mean you have to eat at a King's table or dine at a Delmonico's. On the contrary you can fare just as well, be just as happy, and on far less money, by eating at our restaurant.

GOOD FOOD, GOOD SERVICE are two points of merit that belong to our restaurant. You don't go away hungry and what you get builds you up and don't cause dyspepsia. There are two things no one ever complains of, and that is our food and our price.

## WATCH MAGNETIZED

In these days of the increasing use of electricity the danger of having your watch magnetized is greater than in the past. I am in shape to demagnetize your watch right away and put it in as good shape as when it left the factory. There is no necessity of running the risk of having your watch lost or broken sending it away when you can get it made as good as new at home by a practice workman at a low cost.
