**Osteo-p-a-ty**

It is futile to say that Osteopathy is not a success. The million or more who give over the welfare of their bodies into the keeping of osteopathic physicians is proof that they find it a better thing for health than the older systems of lung practice from which they have divorced themselves.

I am in shape to demagnetize your watch right away and put it in as good shape as when it left the factory. There is no necessity of running the risk of having your watch lost or broken sending it away when you can get it made as good as new at home by a practical workman at a low cost.
