Half a Carload of New Wall Paper.

We have just received half a carload of the newest and latest wall paper. Half a carload means 20,000 rolls. This is more paper than any one firm ever thought of bringing into this county in a single season.

This paper is all for sale and must be sold this season. We have brought two first class paper hangers direct from Chicago, who are without doubt the most skillful workmen in Eastern who, with the first class paper hangers already in our employ, gives us the best working force the inland Empire.

M. M. Austin of Winchester, Ind., knew what to do in the hour of need. His wife had such an unusual case of stomach and liver trouble, physicians could not help her. Cornucopia Mine Sold

Baker City, Nov. 27--Col. W F Butcher of the law firm of But her Clifford & Correll, yesterday returned from Cornucopia where he was in attendance upon the sale by sheriff of the personal property of the Cornucopia Mines. As trustee for the lien-

holders against the property whose claims amount to about \$50,000, Col. Butcher bought in the property at the sale bidding therefore \$2500

The next sale of property of the Cornucopia mines under the decree of the Baker County circuit court will be that of the real estate which will take place November 28th. It is impossible to learn whether or not the Searles estate will take up these claims and pay the local debts of the company or not, but there is fairly good authority for the statement that it will. The property is supposed to be worth nearly a million dollars, local debts against it something like \$50,000.

Osteo-pa-ty

The Osteopathist, in a manner peculiar to his system of therapeutics, has learned how to manipulate, control and influence nerve centres and nerves. By using the bones as levers, he relieves any pressure that may be interfering with nerve action and the transmission of nerve force, which, in turn, acts upon the circulation of blood, relieving congestion in one part and distributing more blood to another part, from which perverted nerve action has drawn it; the potencies are thus liberated and utilized in restoring health.

How to Test Milk.
The following is said to be a test of the purity of milk: If you suspect that the milk which your baby drinks contains formalin or other artificial preservative set a glassful in a warm place for six or seven hours. If it sours it is pure; if it remains sweet it probably contains formalin, and you should send it to the laboratory immediately for analysis.
