## Half a Carload of New Wall Paper.

We have just received half a car load of the newest and latest wall paper. Half a carload means 20,000 rolls. This is more paper than any one firm ever thought of bringing into this county in a single season.

This paper is all for sale and must be sold this season. We have brought two first class paper hangers direct from Chicago, who are without doubt the most skillful workmen in Eastern who, with the five first class paper hangers already in our employ, gives us the best working force the Inland Empire.

## Doing What Our Factory Attempted

But Could Not Secure Rates After Campaign to Refine Cane Syrup

The sugar making campaign is about ended at the Speckles factory and in about two weeks all of the beets will be in, at which time the big mill will close down.

There is an experiment being made at the factory, however, which, if successful, may revolutionize matters there in years to come. The result of the venture will be watched with the keen interest by all residents of Spreckels and Salinas, for the outcome will mean much to both places. This is the converting of sugar cane into cane sugar.

For some years past the Speckles Sugar company's plantations in the Hawaiian Islands have supplied more cane than the company could conveniently handle, and the surplus cane has been shipped to San Francisco to go through the sugar making process there. Now the San Francisco mills have more than they can utilize and an effort is being made to see what success will attend making cane sugar at Spreckels. If it can be converted into sugar at a reasonable profit the prospects are favorable for the big mills being run the entire year, working the beets up during the regular season and cane the remainder of the time.—Salinas, Cal., Index.

The La Grande factory attempted to secure freight rates with a view of doing the same thing that the Speckles factory is about to do. It would be a good thing for this community if our big plant could find employment to run continuously and it may yet.

## Still Hopeful

Observer Special

Freewater Ore., Nov. 29—Before the local option law takes effect a last effort will be made by those who favor the retention of saloons to defeat the law. They believe that as the law has been set aside in other communities for various reasons, some loopholes will be found so that it can be pronounced invalid here.

## Wood For Idaho

Fred Jacobs is filling an order for 50 cars of wood to be shipped to Idaho points. We believe this is the first shipment into that territory.

## Plot Thickening

Portland, Ore., Nov. 29—Startling testimony was brought out today in the land fraud cases. Evidence being introduced by Prosecuting Titty. Heney showing that S B Ormsby, superintendent of the Cascade forest reserve, who was sent out after Inspector Loomis was believed to have joined the conspiracy, following the latter's plan and joined the clique. Ormsby, according to Heney, not only declared Loomis reports true, but backed them up with additional fraudulent reports.

This afternoon is being taken up with the story of Emma Watson's flight to Chicago and capture in that city.
