Brains Child

Everett, Wash., Jan. 7.—While split-
 ting wood Frederick W Soper brained
 his four-year-old son, John. The
 child was swinging about a post near
 where the man was working. The
 boy's arm slipped and he fell forward,
 striking his face on the chopping
 block as the axe was brought down
 with a heavy swing. The blade sunk
 deep into the boy's head, crosswise of
 the skull and the child died in three
 hours. The father is crazed with
 grief.

 said to us. And listen—we don't
 care if you do weigh our meat when
 you get home. Some butchers don't

The Bulletin just issued by the United States
 Government, after months of careful research, shows
 that in the Western States, the average family pur-
 chases annually goods to the amount of **\$750**

On this basis the 2250 families visited

 the amount of **\$1,687,500**

The natural logical conclusion cannot be otherwise
 than that no wide-awake business man who will take
 the few moments necessary to convince himself of the
 accuracy of the above statement, can afford to miss
 the opportunity of placing his announcements (25,500

An ad under such conditions, properly taken care
