TO THE PUBLIC:

The rush of Holiday trade is over and business in general has got back to its normal condition. I wish to inform all my patrons, and those not my patrons but who are liable to be, that I am now in a position to take care of all watch, clock and jewelry repairing with dispatch. I have secured all the necessary help in all the latest tools and materials known to the trade, as well as the best workmen that money can procure.

All repair work is under my personal supervision and I guarantee each and every piece of work done to be finished in first class workmanlike manner, and to give (with proper attention) perfect satisfaction. All work sent by mail or express will receive the same careful attention as if delivered in person, and to be promptly returned in first class condition.

Thanking my patrons for their past liberal patronage and assuring them of my utmost ability to give them perfect satisfaction in the future. I remain

Do not drug your nerves into insensibility. They are the monitors of life which warn you that physical wrong exists in your body or that physiological error has crept into your manner of living. Remove the "lesion." If it is a bodily lesion the Osteopath will attend to that for you. If the fault is in your habits correct them. When the cause is removed your nerves will be at peace with you. Do not treat effects. Get at the sources of trouble.
