THE NEW DISTRICT ATTORNEY

It is with pleasure that the Observer records the fact that the Governor has appointed to the office of District Attorney of the new tenth Judicial district our fellow townsman Clarence Crawford. Mr Crawford will bear the proud distinction of being the youngest district attorney in the state as he was born in 1879 and is therefore but twenty six years of age. He is a Union county man having spent the greater part of his life in this county, though he was born in Dayton Washington. He was a member of the class of 1903 of the Stanford University where he acquitted himself with honor and credit to himself and his class. Mr Crawford has many friends in this county who have known him since his early boyhood, and who are greatly pleased to know that he has been thus highly honored.

Mr William Kennedy left this morning for Union.

Frank E Smith of Elgin was among business visitors in La Grande today.

F D McCully passed through the city last evening enroute to Portland on business.

W D McCully, son of F D McCully arrived in the city last night from Portland and points west and is now on his way home in Joseph. Mr. McCully is much improved in health and hopes to be able to go back to fulfill his ambitions by again taking up his position with the navy.

Tonight at the Baptist Church Mr James Edmunds of Portland gives the closing lecture of the institute for parents and Sunday school teachers. His theme is "The Moral and Religious Education of the Child". This lecture is one of Mr Edmunds best, and is everywhere received with the highest commendation. The lecture is forceful, graphic, brilliantly illustrated and merits the attention of all who are interested in the child.

NEW HOPE FOR DYSPEPTICS

We insist that associated with well known factors, other underlying and predisposing causes are to be found in the spinal anatomy which, before the rise of the Osteopathic school were overlooked. We contend, with our experience in locating and remedying these abnormal conditions of one's anatomy—usually along the spine—and in observing the benefits that follow, that such physical defects (known as Osteopathic "lesions") are primarily the first causes of dyspepsia, as a usual thing, while these other better known factors are but secondary causes.

Not Guilty

In reply to a statement which appeared in the Chronicle of last week in reference to the Grande Ronde Lumber Company raising their flood gates and etc., the Observer received a phone from the company this forenoon asking us to state that they had not raised a flood gate during the past four months, that they had been outting it and a flood would have resulted in injury to themselves.

The food and the cook are what make or unmake a restaurant. Both must be good or else those who eat will move from instead of towards the door. The Model restaurant has the cook—an artist in his line—and the choicest food of every description is prepared daily. This is prepared in a way that will tempt the dullest appetite and the quality is high enough to satisfy the sharpest one.
