flour 951,609 barrels, valued at \$3,641,851, barley 971,745 bu of the value of \$533,915.

Total grain and flour (1 barrel equal 4 1/2 bushels) 9,678,356.

Of the total of 14,701,361 bushels of grain shipped from the Pacific coast there were shipped 9,675,751 from Portland Oregon.

### OREGON WHEAT CROP

The Crop Reporter, issued by the U S Agricultural Department for April gives the condition of winter wheat in Oregon on April 1 at 90 per cent of a full crop on April 1, 1904 the per cent was 96.

Throughout the U S on the above date for this year the per cent is 91.6 per cent against 78.5 per cent last year on April 1

### OUT OF DEBT

Lane county is about out of debt, the county treasurer has issued notice to all holders of county warrants up to Jan 9, 1905 to call and get their cash.

The people of Honolulu do not propose to lose their Japanese if they can prevent it. There is work to be done there for which the little brown men are needed, and the people intend to keep the workers if possible. The other day a ship appeared with a cargo of coal. It had been arranged for her to bring back a large number of Japs. She got the latter, but the people boycotted the coal as punishment for the offense of the owner of the vessel in coming after their workers.

The man who kindles the fire with the catalogue from the department stores and gives his trade to the home merchants, is the man who helps to put a better value on your property. The more a town grows and the better business it does, the more your property will grow in value. The man who patronizes the city stores, thinking thereby to save a few pennies, is simply detracting from the value of his own property.

### Neutrality Assured

By Scripps News Association  
Paris, April 21.—The French minister to Tokio has assured the Japanese Government of the neutrality of France.

## WORLD'S WHEAT CROP

The wheat growing countries North and South America, Europe, Asia, Africa and Australasia, in 1904, raised 3,182,404,000 bushels of wheat, of which Europe produced more than one half, 1,726,159,000 bushels. The U S that year raised 552,403,000 bushels of wheat and from the above figures it appears that there were but a little over two bushels of wheat per capita for the world's population grown. The people of the United States consumed in 1903, of wheat, 581 bushels per capita. When all the people on earth use as much wheat bread as do the people of the United States, it will require three times as much wheat to meet the demand as is now produced.
