### Fourth Trial Begins

Georgetown Ky May 2—The celebrated case of Caleb Powers, former secretary of state of Kentucky, and thrice sentenced to death for the murder of Governor Goebel, came up for hearing in the district court here today and the fourth trial will proceed without delay. The present trial promises to be even more interesting than its predecessors. Former Governor Black of New York, recognized as one of the foremost criminal lawyers of America, has been retained to conduct the defense, and he will be assisted by former Governor Yates of Illinois and several other attorneys of prominence.

### The People's Eyes

The acts of Grand Juries both state and national are bringing that institution into prominence. People realize, as never before that our system of government is not a sightless affair that groups among current events, while great criminals stalk boldly in high places reaping a rich harvest by frauds, and perfidy with "more to molest or make afraid." Grand Juries are the people's eyes and at present they seem to be taking a keen scrutiny of men in official positions as well as among the slums.

### CLEVELAND COAL TRUST INDICTED

Cleveland May 2—The grand jury today returned indictments against 11 members of the executive committee of the Cleveland Retail Coal Dealers' Association, known as the local coal trust, charged with restricting trade, preventing competition and fixing prices in violation of the Valentine anti-trust law.

### Man's Unreasonableness

is often as great as woman's. But Thos. S. Austin, Mgr. of the "Republican" of Leavenworth, Ind., was not unreasonable, when he refused to allow the doctors to operate on his wife, for female trouble. "Instead," he says "we concluded to try Electric Bitters. My wife was then sick, she could hardly leave her bed, and five (5) physicians had failed to relieve her. After taking Electric Bitters, she was perfectly cured, and can now perform all her household duties." Guaranteed by Newlin Drug Co., price 50c.

### Coming

A rare treat and novelty is in store for La Grande theatre goers. A large company of little people is reported to be journeying this way. They travel under the title of the Williams Opera Company and if press reports are true, Manager Steward is to be congratulated for booking such an excellent attraction. The company is composed of some thirty little artists ranging from 4 to 12 years of age who sing, dance and act in such a way as to cause not only much praise and comment from the press but also wonder and admiration from the general public wherever they appear. These clever and talented little people are reported to have taken the whole coast country by storm and it is with much interest that we look forward to their appearance here in a brand new Musical Comedy.

### Anti-Duelling League

Bria May 2—The Anti-Duelling league is endeavoring in strike at the cause of duels and urges the government to support a bill providing for the punishment of unfaithful husbands and wives with imprisonment of six to 24 months punishing persons who untruthfully assert that a woman has been unfaithful to her husband punishing with imprisonment, instead of by a fine alone, a man who insults another or who libels him, and treating killing in a duel as murder and all who participate in a duel as criminals under the ordinary code.

(By Scripps News Association)  
Tokio May 2—The fifth government loan was taken today at a premium. The loan taken was made for forty million dollars.

### Chemistry

The most important science to a farmer is chemistry, because it is the only one that explains to him the process of plant growth. The growth of a plant from germination to ripening is effected by a successive series of chemical combinations of the elements and as the labor of the farmer is to facilitate these combinations, unless he understands chemistry his work is largely guess work.
