Difference Of \$100,000

The failure of the compositor to place the figure one in front of the first line of figures in the Farmers and Traders National Bank, made the item read only thirty seven thousand, when it should have read one hundred and thirty seven thousand, a considerable difference. The item has been corrected and our readers will notice that the figures now appear one hundred and thirty seven thousand dollars instead of only thirty seven thousand dollars.

The Natural Way

Osteopathy is proving daily that our bodies contain all the element necessary for health and that health is natural so long as the blood current is perfectly distributed to all parts and there is perfect balance of nerve control. The causes of disease have been demonstrated by Osteopathy to be, in a large measure, mechanical. Therefore, by removing these mechanical causes, the inherent recuperative power of the body is allowed to perform a cure.
