It is believed the workman was lying in wait for the Governor General who was expected to pass that way shortly on his way to the cathedral to celebrate the birthday of the czar.

IS IDENTIFIED

MAYOR DUNNE SAYS THE END IS NEAR

(By Scripps News Association)
Chicago May 19.—T J Cavanaugh, secretary of the Chicago team owners' association, today expressed the belief that the teamsters' council, which will meet tonight will accept the arbitration proposition made by the owners. As a meeting which adjourned early this morning the teamsters' council was postponed until tonight, and no action on the question of arbitrating the delivery of goods to the boycotted stores will be taken until that time.

On his return, President Gompers will continue his efforts to find some solution to the present tangled strike problem. So far, his efforts have seemed futile.

FLOUR FAMINE THREATENED
A serious flour famine threatens in Chicago as a result of the spreading of the strike to the wholesale flour manufacturers. The dealers predicted that the delivery of flour would be tied up within the next ten hours. The employers are showing their hand today when Pieser, Livingston and Company discharged twenty eight union drivers who refused to make deliveries. It is said that other concerns will take similar action.

MAY CONFINE STRIKE
If the teamsters yield this point, it will be because they want to confine the strike to the present limits. President Gompers will return to Chicago Saturday night from Dayton, where he went to address a labor meeting.

TO BE TRIED FOR CONTEMPT
The attorney for the employers in the injunction proceedings before the Master of Chancery, Sherman, today announced that he would cite all the members of the union who refused to answer questions, to show cause why Judge Kohlsaat should not send them to jail for contempt. This will take place Monday and the list includes president Shea.

NO ARBITRATION
President Shea said this afternoon that all prospect of arbitration between the team owners' association and the teamsters were at an end. He denied emphatically that the strike had been called off.

DENY NEAR SETTLEMENT
Levy Mayer, an attorney for the employers, said he knew nothing of the reported strike settlement. President Reed of the drivers' union and the members of the strike committee said that they did not believe the report was authoritative.

MAYOR SEES THE END
1 p.m. Mayor Dunne declared today that he had received from reliable sources information that the strike would be completed within forty eight hours. It is reported that, before leaving last night, president Gompers informed president Shea that the strike must be called off. Rumors that a settlement was impending were current at noon, but no definite information is obtainable.

Shoots Himself.

He had been drinking and went into Heilner and Co's store and walking up to Nelson McCord, an employee, said he wanted to see him in the boss's office privately. McCord went with him and sat down at the desk and Haskell pulled out a revolver and pointed it at him, telling McCord that he had been interfering with his family affairs. About this time a customer came to the office door and questioned McCord regarding some orders, after which Haskell again drew his revolver, telling McCord not to move, and then took the revolver and placed it to his own head, saying "I will show you that I am game" and fired. He died within an hour. Haskell was a man of about 35 years of age and leaves a wife and four children, and it is generally believed that he was not right in his mind. He has been farming at Wingville near this place for some time and had been drinking for some days. The verdict of the jury was that he came to his death by his own hand.
