ATTRACTIVE SURROUNDINGS

Add to the enjoyment of eating. Our restaurant is run on this principle and our tables, not to speak of our employes, are attractive to the eye. Snowy linen, shining silver and glittering glassware make an appetizing preparation for the good food we serve. And there is

NO DISAPPOINTMENT

when it is placed before you, perfectly cooked and in generous proportions. How we manage to serve such meals at such modest prices is a mystery to every housekeeper in town.

A New Ball Team

The base ball fever has struck the employees of the O. R. & N. at this place with the result that the machinists and boiler makers have organized a team to be known as the "Machinists' and Boiler Makers' Base Ball Team." This team is a picked team, the very best material having been chosen, and each and every one of the players are tried and tested men. They are a fast team and will make it extremely interesting to any team with whom they cross bats. One thing that most amateur teams lack is confidence, but this team seems to be "chockfull" of it, for they publicly challenge any railroad team on the O. R. & N. system. The line up of the team, as far as can be learned, will be as follows: Ferguson, c., Duryea, p., Nibler, s. s., Denny, 1st b., Cochrane, 2nd b., Ladd, 3rd b., Hoyte, r. f., Noble, c. f., Harrison, 1 f. We trust that some team will soon accept the challenge, so that we may see the work of the team.

It is expected that quite a number of La Grande people will attend.
