Gets Twenty Years
(By Scripps News Association)

PAIN IN THE LEFT KNEE

Women often suffer from pains called "relatio" which are really reflex from the uterus. In such cases the pelvic trouble must be corrected to cure the pain. Osteopathy is successful in these cases also. The pain felt by many women at the inside of the left knee is almost certainly a reflected pain and indicates uterine disorder, not necessarily serious, but certainly needing attention.

Osteopathic physicians find that variations from the normal position of the lower segments of the spinal column with the attendant contractions of ligament and muscle that such a lesion entails, are very productive of relation and that corrective treatment in the back will cure the malady. Thus you will see that anatomical ills causing scoliosis may be located anywhere between the middle of the back and the knee. It is the part of the Osteopath to find the disturbance and correct it, if restoration is possible, no matter where it is.

LANDS SELL FOR BIG MONEY

Colfax, Wash., May 22.—Two important sales of farm lands were closed here today. H S Hollingsworth sold 240 acres of land near Wilcox, 10 miles southwest of Colfax, for \$40 an acre, and reserved the growing crop. L B Abrams sold 200 acres adjoining Hollingsworth's farm for \$45 an acre. Neither farm has any buildings, and the only improvements are the land in cultivation and fenced. The purchasers are Adolph and Otto Kroli, sons of Michael Kroli, who bought John A Lyons' farm near Wilcox several months ago for \$50 an acre. Five years ago none of these farms would have sold for more than \$15 an acre. The Kroli are German farmers who came here last winter from Minnesota.

The Y M C A met last Saturday night at the Baptist church where a most enjoyable time was had by the young people studying and making plans for their future work. The basement of the Baptist church is going to be fitted up for the meeting place in the future and a meeting will be held on every Saturday night. There are now about twenty live, active members and they have great hopes of doubling the number in a short time.

The city of La Grande ever alive to anything that will benefit it's interests is constructing cement sidewalks. The change from the old board sidewalk will be appreciated by not only the people of La Grande but by strangers as well.—Powder Valley Echo.
