New Switch Engines

In about two weeks the O R & N
company will have four new switch
engines for its own use on this end of
the line. Mr John S Reese, special
engineer for the Baldwin Locomotive
works at Philadelphia, who accompa-
nied the new freight engines which
have been lately received here, and
erected them in the yards at this
place left this morning for Omaha,
where he will receive the four new en-
gines and bring them here. These en-
gines will be used as switch engines
only, and they have all the modern
improvements that the ingenuity of
man has devised for engines of this
class. Mr Reese will have charge of
setting up all four of the engines in
the shops here and at least one of
them will be used in the La Grande
yards.

"RHEUMATISM FROM DIRECT PRESSURE

There are frequent cases, too, in
which supposed rheumatism is due to
the same sort of direct pressure on
nerves that is the chief cause of sciati-
ca. When an arm and shoulder are
keenly painful and practically useless,
for instance, it is often found that the
clavicle, or collar-bone, is pressing on
a great nerve. With the removal of
the pressure by Osteopathic manipu-
lation comes, not only complete relief,
but permanent cure. Instances of
cures of this kind are very numerous.
Indeed, in fact common occurrences.
It is certainly worth while to learn if
you are suffering from mechanical
pressure on nerves; for if that is the
case it is quite evident that there can
be no cure until that pressure is re-
moved.
