THE OBSERVER

**PAYING MINES IN
EASTERN OREGON**

Mr H O Cotner, of this city, returned Sunday night from a trip to his mines in Baker county near Sanger, where he took a party of men to do development work. Mr Cotner expresses himself as well pleased with mining prospects in that vicinity. On their trip to the mines, one of the pack horses fell over a bluff and rolled down into the river a distance of one hundred and eighty feet. Miraculously, the horse was rescued alive, and but very little the worse for wear except a few severe bruises. The pack on the animal saved it from instant death, and it was rescued by Mr Frank Steward, a miner from Baker City. But little of the goods in the pack were lost. He informs us that Mr L H Russell, a merchant at Sanger, is authority for the statement that Cox and Anderson, Baker City mining men, have struck a body of ore three miles below Sanger on Goose Creek that is one of the best ledges in Eastern Oregon. They have run in one hundred sixty five feet, and have made several drifts, while the ore proves continuous without any waste or gang matter whatever. The lowest assays obtained from this ore are five dollars per ton, and Mr Russell thinks it will prove to be the biggest mine in Oregon.

Not only is the work being pushed rapidly on this mine, but many others in that vicinity are being operated. The Basin mine, which was formerly owned by Mr Joseph Palmer of this city and others, now has seven men at work. The stamp mill, which has not been operated for some time, is now being put in condition, and will soon be ready to receive the rich ores that the mine produces. This mill is a five stamp mill, and is in such good condition that it will not take very long to get it in readiness. Mr W J Lindsay, formerly master mechanic at La Grande for the O R & N, is foreman at these mines. Mr Russell has purchased nine claims east of Copper creek, and is now ready to let out a thousand dollars worth of tunnel work. The old placer mines between the Basin mines and Copper creek are now being reopened and worked with profit. Mr Cotner seems to think that Union county lost its most valuable mineral belt when the "pan-handle" was annexed to Baker county.

Will Turn Banker

Chicago, May 26.—Close friends of Paul Morton, secretary of the treasury, express the conviction that the vice president of the Santa Fe will go into the banking business when he retires from the cabinet. Banking and finance are said to have a peculiar fascination for Morton. Gossip says that he has been offered the presidency of one of the largest trust companies in New York City and that he is inclined to accept it in preference to offers made him by various railroad companies—that he even prefers it to the presidency of the Gould system of roads, where his executive ability would find wide opportunity.

Senator Clark Wins

Butte Mont May 26—According to advices received in this city yesterday, the circuit court of appeals at San Francisco there handed down a decision in the case of the United States against Senator W A Clark, appealed from the federal court for the district of Montana, involving title to lands. The court finds that the title to the lands in question is valid and that his patents stand. It was alleged that fraud had been committed by entrymen, but this the government failed to prove, no fraud or irregularity whatever being shown in the transactions whereby Senator Clark came into possession of the lands. The decision is very important.
