Cement Walk

To The property owners in the cement district—While we are leaving La Grande for a short time, we expect to return, being desirous of putting in the cement walk that is to go in this year. We are going where we worked last, the walk put in by us having proven satisfactory in every respect. So much that we are asked to come back. The work that we have put down in La Grande shows itself and in every way conforms with the city specifications. We can not do this kind of work for \$75. the price that has been quoted by some people and will not try to do so. We can do work for that money, but it will not begin conform with the specifications. We can do it some cheaper than our former price where we have a large amount of it in a row. Thus saving the expense of a crew standing around while a move is made.

Scott & Kahn

The La Grande School of Music has increased so rapidly that Prof. Day has been obliged to rent the entire second floor of the Fisher building opposite the Foley Hotel over the candy store, which he has secured for three years.
