LA GRANDE SCHOOL OF MUSIC

PROF. DAY, Principle.

MRS. DAY, Assistant

This is one of the best musical institutions in the state. During the year 1904 there were nearly four thousand lessons given. The people in this city and valley are beginning to discover the great advantage of this school. The system used is the latest and most practical, and includes all the latest discoveries in the art of teaching music. The school is divided into two departments; No. 1 is for beginners, from 5 years up, and taking in the 1st to 3rd grades. In this department pupils come one hour every day. In No. 2 the grades are from 3 to 15. Here they graduate. Pupils take one or two lessons a week as they desire. No scholars will be permitted to remain in this school who do not study.

Roosevelt Paid

Washington June 7—The fact that law in the United States applies to the greatest as well as to the most humble is illustrated by the action of President Roosevelt in sending two cents to Berwick Pa., postoffice to pay postage on a letter mailed at that place.

The letter was mailed last Monday and was addressed to the president personally. It bore a stamp cut from a stamped envelope, which is contrary to the postal laws. Postmaster Roman informed the president that the letter, held for postage, awaited him and that on receipt of two cents it would be forwarded. The two cent stamp was sent and the letter accordingly was forwarded to the White House

U S Coast Defense

Washington June 5—The general staff of the army has recommended the establishment of a system of submarine defenses for the coast. The plan has been approved by Lieutenant General Chaffee and will be by him submitted to congress.

This is one of the definite results of the war in the far east, where torpedo boats, both fixed and mobile, and submarine mines played such an important part in the destruction of ships.

The new corps will embrace 5000 officers and men, who will be trained in the specialized work of submarine defense. It is proposed that members of this corps shall not only have charge of torpedo outfits and shore batteries that will protect the mine fields, but they shall be charged with the care and operation of public plants, searchlights and other accessories.

The estimated cost of equipping the proposed submarine defense is \$4,000,000. This will provide for a fleet of submarine torpedo boats for all the principal harbors, searchlight equipment, wireless telegraphy outfits and floating mines.

It is expected that the navy will enter an objection to the plan that a fleet of submarines be constructed for operation by the army. There is much jealousy between the services over this question and it is already apparent that the scheme will not go through without a fight.
