Uncle Sam would take pleasure in putting the republic of Norway on his calling list.

There will be a very large attendance at the fair the next few days by those who are interested in Good Roads.

The companies of the eighth regiment U S Cavalry, under command of Col. Kingsbury left Fort Sill Oklahoma for the Philippines Islands last Saturday.

It is a big jump, not slump, that has followed the world's fair in St. Louis.—Globe Democrat. A similar condition will no doubt follow at Portland.

In the House of Representatives the democratic party will not have a single member from the vast district west of the Missouri river and north of Texas.

The National Good Roads convention to meet in Portland June 21 to 24 promises to be one of the greatest features of the fair and one of the most beneficial to the state. Oregon's good roads interests should be well represented.

It is estimated that 30,000 families in New York have closed their houses and established themselves in suburban homes for the summer. Those people would make a pretty good sized city if they were all gathered together in one place, and yet they will not be missed from the streets of the metropolis. Boards placed in windows will be all that will remind city dwellers that anybody has sought fresh air in the country.

Though Secretary Hay does not propose to do such work this summer, he has already been at his desk in Washington and has no doubt gone through the important questions pending there. He is said to be in very good health, but the European physicians whom he consulted insisted that he take a long rest, and he proposes to do so. That is right. The country can well afford to permit him to rest so that he may be at his best when some especially important question comes forward demanding his personal attention.—Ex.

At Bringeport Conn., a vessel is being built on a new model and with improved engines with the view of making her the fastest craft ever launched, the builders expecting her to attain a speed of 45 knots. If they can turn out a boat of that kind they will make the torpedo boats of the navies of the world look like terrapins.

The threatened rupture between Germany and France seems in a fair way to be averted by the exercise of herculean self control on both sides. Emperor William is playing his great diplomatic game for commercial concessions in Morocco with a strong hand, but there is no reason to believe that he is looking for trouble. France and Germany have shown that they realize the desirability of peace, and the rest of the world will actively assist them to keep it.

# HOW WE ARE BUILDING

We are building on a permanent foundation, and nothing is too good for us. Our strong line is the Adler, Bros. & Co., Rochester, made ready-to-wear. These are clothes that are honest inside as well as attractive outside. If you buy, and it proves to be otherwise, your money back without a word. Better satisfaction at \$20 to \$25 than can be secured in any other ready-made; as complete satisfaction as can be secured in first-class made-to-measure. This is our promise to all who make a trial of L. A., B. & Co., clothes, and we stand ready to redeem that promise to the letter. You are always welcome to drop in.

HERE'S THE VERY SHOE YOU'VE BEEN LOOKING FOR

Cut from the softest, most flexible of fine calf skin—with a smooth, tough lining, a sole that is made to stand trouble, and just the right amount of style. It's one of the most popular of KEITH'S KONQUEROR family—and if you had your shoemaker turn out such a shoe, he'd tax you not less than \$8.00
