THE TESTIMONY VERY DAMAGING

By Scripps News Association
Portland Ore June 23—Testimony very damaging to Senator Mitchell was given today by his former partner, Judge A. H. Tanner in the Federal court. He continued the history of the partnership concerning the acceptance of fees for promoting timber claims to patent. He also identified letters, notes and documents passing between the partners. After an extended argument, the prosecution won an important point, Judge Dehaven permitting the introduction as evidence, transactions other than those directly involved in the indictment, in which Mitchell received fees paid for his word before the Governments. The evidence was admissible for the purpose of showing Mitchell's knowledge of guilt and rebutting the contention of ignorance by the defense. Following the court's ruling, the third contract of Mitchell and Tanner with Frederick Kribbs and the contract with J. A. Benson, of California, were introduced as evidence.

Funeral Sunday

This city and vicinity was greatly shocked last evening upon reading of the sudden death of Mrs. J. E. Reynolds which occurred yesterday afternoon at the family home a few miles southeast of the city. The funeral will take place Sunday at 11 o'clock from the Christian church under the auspices of the order of the Eastern Star of which Mrs. Reynolds was an active member. The deceased was a native daughter of Grande Ronde valley. Her parents were Mr. and Mrs. John A. Childers early pioneers, who have preceded her to the other shore. She was loved and respected by a very large acquaintance.

She always had that happy greeting which is only possible for those whose bosom beats with that generous love for mankind and who was ever willing to lend the helping hand. She leaves a husband J. E. Reynolds one of the substantial sturdy and respected farmers and business men of the county, and six sons who have the deepest sympathy of all in their terrible grief. The one happy home is broken. The vacancy cannot be filled on this earth but the bereaved can rejoice that their belief and faith is such that they know there will be another meeting and the family will be reunited never again to be parted.

Mr. L. A. Stoen, of Elgin, was in the city yesterday attending to matters of business.

Get Real Perfumes

The art of making perfumes is so complicated that few master it. It is easy to make an odor that will seem desirable when smelled from the bottle; but to give the odor permanence and the quality of remaining sweet and unchangeable on the handkerchief requires skill that few perfumers possess. It is the maker's name and not the name of the odor that counts.

We carry a large assortment of the finer grades of perfumes. They have every quality that good perfumes should have. They cost you no more than the poorer sort.
