All the land fraud cases will be set for trial next Friday.

The good roads' movement has now reached the talk stage; after awhile there may be something doing.

The rainy weather at Portland is keeping a great many visitors from attending the fair. There is plenty of time yet however.

Graft is alleged in the letting of a contract by Public Printer Palmer for 72 typesetting machines for use in the government printing offices at Washington.

The Idaho state fair commission is having 25,000 copies of the last biennial report of the state immigration commissioners printed for distribution in the east as an advertisement of the state.

We hope the board of regents of the Agricultural college will find some way to permit the continuance of the Union county experimental station. It is just beginning to accomplish some of the purposes for which it was instituted.

From the surface indication it begins to look like there will be considerable activity for the Republican nomination for Sheriff and it might not be a miss to state also that several Democrats have a desire to succeed sheriff Pennington.

Already we are beginning to feel the influx of eastern money presumably the effects of the fair. This is made manifest by the unusual number of one and two dollar bills in circulation. We dare say that most of our mercantile houses as a usual thing rarely ever handled more than three or four such bills during the year, prior to a few months ago. Now they are becoming quite common.

Under the initiative law our people must educate themselves to the fact that simply because a law is petitioned for that, it should be voted for. On the other hand because they have not taken the trouble to inform themselves with reference to it, that to be safe they must vote against it. The people must begin to keep up with the times and keep informed as to the merits and demerits that they will be called to pass upon.

**ELI BAIR.**  
Island City Oregon

A few took exceptions to an editorial paragraph made with reference to the Baker City contingent who attended the Elks social on Thursday. The whole thing was intended for irony and in that light was complimentary instead of otherwise, as it was intended.

It is the little things that count if properly attended to. The Commercial Club have recently accomplished two purposes and both were simply the result of a suggestion but such suggestions coming from a live association have power.

The Club suggested to the O R & N Co. the advisability of having all trains stop at North Powder so those citizens could visit our city. Since the new order went into effect we have had many more business visitors from the southern portion of the county than formerly. A few weeks ago the club instructed the secretary to see if the express company could be induced to put on a delivery system and this has been done.
