## La Grande Brick Yard

The brick yard of Mr George Kreiger, just outside the city limits, is now in full blast and a large crew of men is at work making the brick that have a reputation for their quality wherever they are used. Mr Kreiger has had long experience in this line of business, and the brick of excellent quality that he turns out from his plant show that he has profited by experience. At the present time, he has burned one kiln containing two hundred and seventy five thousand brick, and one is now burning which is composed of three hundred thousand. Altogether, at the present time, there has been moulded in the yards this season eight hundred thousand bricks. A third kiln is now being erected and will be burned as soon as completed. When all the force are working, the number used in connection with the plant is forty five. The moulders each make six thousand brick per day, working eight hours. Mr Kreiger already has contracts for and intends making something over two million brick this season. This not only affords a large payroll to the city, but the quality of the work turned out is a credit to the city and county, as well as to the management of the concern. This plant not only manufactures brick for home consumption, but sends many thousand to the outside.

## COMMON WEALTH WINS SECOND

N K West received a telegram this morning announcing that his horse Common Wealth had won second place in the two fourteen class in the race yesterday at Los Angeles. Time two fifteen and a quarter. This is remarkably good showing for a horse which was wintered in this northern climate when entered against horses which had the benefit of a winter at and training upon the Los Angeles track. Common Wealth will certainly make a horse which will make his owner and Union county world famous.
