Shot Their Officers

London, July 12.—The Morning Post from authoritative sources, gives an account of the recent outbreak at Libau. The attempt to carry out the sentences of death provoked still more serious signs of mutiny, whereupon the port commander ordered the executions stopped and applied to St. Petersburg for instructions.

The government replied that all the mutineers must be shot and a shooting party was formed, but when the order to fire was given the firing squad turned and fired on the officers instead of on the condemned mutineers, and a dozen officers fell dead. Other troops, including Cossacks, the account says, were summoned, and a serious conflict ensued, during which 23 Cossacks were killed before the mutiny was quelled.

May Extend Lines

Chicago July 12—Julius Kruttschnitts director of maintenance and operation of the Harriman system says:

"The Union Pacific and Southern Pacific roads will build a number of short lines from points where it may seem feasible and paying. We are engaged in surveying and looking over a number of proposed extensions, in fact, but have definitely decided on very few. The Union Pacific may use the Burlington stub from Hastings to Kearney, Nebraska, in connection with a new line from Kansas City, which is being built. However, that point is not settled, and the Union Pacific may use the tracks of the St. Joseph & Grand Island from Hastings to Grand Island to connect with its main line instead of using the Burlington to Kearney."

OIL STOVES

Now is the time to keep cool. If you fire up the kitchen range the kitchen will be hot most of the day. Why not get an oil or gasoline stove to do your cooking and baking, and at the same time have a cool kitchen. I have the

Somebody has unearthed from the files of the Scientific American this little item, of present interest, which was printed in the issue of September 2 1893. "In cutting some timber in Omaha, a few days since, a bullet was found imbedded, in the trunk of a rock elm. The grains which had overgrown it show that it must have been deposited there sixty two years ago, a time when the country had not yet been visited by any white man, except the explorers Lewis and Clark.
